Standard Drawings Index

Click the Standard number on the left to go to that drawing.

126	Standard Straw Bale Dike, Silt Fence, and Construction Entrance	617A	Signal Poles and Mast Arms
325	Ball Valve Vault Standard For 16" & 24" Lines Under H-20 Loading	617B	Single Mast Arm Details
326	Ball Valve Vault Standard For 30" thru 48" Line Under H-20 Loading	618	Bonding Diagram
327	Combination Air Vacuum/Relief Valve Vault for 2" ARV Less Than 5 lbs. in Weight	619	NOT USED
328	Standard 4" 6" 8" Air Valve Assembly On 16" thru 48" Main	620	NOT USED
329	Standard 8" and 12" Blowoff Assembly	621A	Lighting Controller Details
330	Cathodic Protection	621B	Lighting Wiring Details
331	Details for 6' - 8' Sanitary Sewer Manholes		
525	3" Meter Standard and Vault Assembly	725	Standard Pavement Patch and Repair
526	3" Meter with Pressure Sustaining Valve Assembly and Vault	726	Asphalt Pavement Standard Details for Residential and Collector Streets
527	4" Meter Assembly and Vault	727	Concrete Pavement Standard Details for Residential and Collector Streets (1 of 2)
528	4" Meter with Pressure Sustaining Valve Assembly and Vault	728	NOT USED
529	6" Meter Standard and Vault Assembly	729	Concrete Pavement Standard Details for Residential and Collector Streets (2 of 2)
530	6" Meter with Pressure Sustaining Valve Assembly and Vault	730	Standard Asphalt Pavement Cut and Repair
531	8" Meter Standard and Vault Assembly	731	Standard Concrete Pavement Cut and Repair
532	8" Meter with Pressure Sustaining Valve Assembly and Vault	732	All-Weather Parking Surfaces for Light Duty Residential Parking
533	10" Meter Standard and Vault Assembly	733	Standard Pavement Rehabilitation for Utility Construction
534	10" Meter with Pressure Sustaining Valve Assembly and Vault		
535	NOT USED	761	Standard Inlets and Grates w/ Access Manhole Back of Curb
536	NOT USED	762	Precast Standard Inlets and Grates w/Access Manhole Back of Curb
537	NOT USED	763	Standard Masonry Stormwater Inlets (for rehabilitation and reference only)
550	Backflow Prevention Options Index	764	Standard Reinforced Concrete Stormwater Inlets
551	4", 6", 8" Detector Check Assembly and Meter Can	765	Standard Stormwater Frames
552	4" - 10" Detector Check Assembly and Vault	766	Standard Stormwater Grates
553	4" - 10" Double Check Detector and Vault Assembly	767	Standard Cast Iron Curb
		768	Standard Recessed Curb Inlet
		769	NOT USED
601	Pull Box Installation	770	Standard Drop Inlet 15", 18", and 24"
602	Conduit Installation	771	Standard Drop Inlet 30", 36", and 42" with no Access Manhole
603	Signal Pole Footing Details	772	Standard Drop Inlet 48" Pipe
604A	Installation of Detectors	773	Standard Three Way Drop Inlet 48" Pipe
604B	Detector Wire Installation	774	Standard Masonry Manhole and Junction Box (for rehabilitation and reference only)
605	NOT USED	775	Standard Precast Concrete Stormwater Manhole
606	Emergency Pre-emption Detail	776	Standard Pipe Headwalls 15" to 42"
607A	Traffic Signal Service Pole and Service to Signal Standard	777	NOT USED
607B	Traffic Signal Pedestal Service	778	Grouted RipRap Protection for Existing Headwall (for reference only)
608A	Street Name Signs	779	Standard Energy Dissipator
608B	Traffic Signs	780	Standard Baffle Block Energy Dissipator
609	NOT USED	781A-D	Semi-Elliptical Storm Sewer A B C D
610A	332 Controller Cabinet Detail	782	Standard Low-Flow Concrete Channel Typical Layout
610B	336S Controller Cabinet Detail	783	Concrete Lined Channel
610C	332 Cabinet Wiring	784	Vertical Wall Channel
611A	Pole Wiring Detail	785	Standard Dikes and Swales
611B	Downtown Pedestal Wiring Detail	786	NOT USED
612	Cabinet Guard Detail	787	Sidewalk Grate for Tree Well
613	Pedestal and Mast Arm Pole Details	788	Single Pole Gate
614A	Traffic Signals and Accessories	789	Double Pole Gate
614B	Signal Head Wiring	790	Standard Sidewalk Ramp
615	NOT USED	791	Special Type I Drop Inlet
616	Mast Arm Brackets	792	Special Type II Drop Inlet
