ARTICLE 7 - GRIEVANCE PROCEDURE

Section 7.1 Union may file a grievance concerning the interpretation of any provision, including the prevailing rights, of this Agreement and/or disciplinary action taken against an Employee when a question of just cause exists. All grievances shall be processed through the Union. Removal, demotion, and discharge shall be subject to the grievance procedure or subject to the jurisdiction of the City Council as provided in Article 11 of the Charter of the City of Tulsa as the member shall elect, except for new hires as provided in Article 1, Section 1.2. The

member's election of remedies shall be binding and irrevocable. Grievances under this Agreement shall be processed in accordance with the following:

- Step 1.** The grievance shall be submitted in writing to the Fire Chief or his designee. By virtue of the supervisory capacity in which they serve, Employees holding the rank of District Chief and above may be required to investigate and provide necessary input and recommendations to the Fire Chief in his/her deliberation of first step grievances. The Fire Chief shall submit his/her answer to the Employee in writing, with a copy to be forwarded to the Union within ten (10) calendar days after receipt of the grievance.
- Step 2.** If the grievance remains unresolved, it may be submitted to the Human Resources Director of the City in writing within ten (10) calendar days of receipt of the written answer from the Fire Chief. Within ten (10) calendar days after receipt of the grievance, the Human Resources Director or his/her designee and appropriate supervisory representatives of the Fire Department shall meet with three (3) members of Union Grievance Committee in an attempt to resolve the grievance. The Human Resources Director or his/her designee shall submit Employer's answer in writing to the Grievance Committee within ten (10) calendar days after such meeting.

Section 7.2 If the grievance is unresolved after receipt of Employer's answer in Step 2, Union may request in writing within ten (10) calendar days that the grievance be submitted to impartial arbitration. Prior to arbitration, the parties may mutually agree to utilize mediation to attempt to resolve the grievance.

Section 7.3 No matter shall be entertained as a grievance hereunder unless it is raised as such within twenty (20) calendar days after the occurrence of the event or after the Employee becomes aware of or reasonably should have been aware of the event giving rise to the grievance.

Section 7.4 All time limits set forth in this Article may be extended by mutual consent, but if not so extended, they must be strictly observed. If a party fails to pursue any grievance within the time limits provided, he/she shall have no further right to continue the grievance. Likewise, failure to respond to a grievance by the appropriate Employer agent within the prescribed time limits shall allow Union or grieving member to automatically move the grievance to the next step.

Section 7.5 Within ten (10) calendar days from receipt of the request for arbitration, the parties shall jointly request a panel of seven (7) arbitrators from the Federal Mediation and Conciliation Service, unless the parties can mutually agree upon an arbitrator to hear the dispute.

Section 7.6 Within ten (10) calendar days from receipt of such panel, a representative of Union and Employer shall meet and alternately strike names until one (1) arbitrator remains who shall be selected as the impartial arbitrator. Employer shall strike the list first in even years, Union shall strike the list first in odd years.

Section 7.7 Within ten (10) calendar days the Federal Mediation and Conciliation Service and the arbitrator selected shall be notified. The date for the arbitration hearing shall be set within twenty (20) calendar days from the date of such notification to the arbitrator.

Section 7.8 The parties may mutually agree or the arbitrator may allow briefs upon an oral motion of one party and the arbitrator determines that written briefs would be important to the disposition of the case. The arbitrator shall have twenty (20) calendar days after the hearing is concluded, or receipt of briefs, to render his/her award and findings of fact.

Section 7.9 With respect to the interpretation, enforcement, or application of the provisions of the Agreement, the decisions, findings, and recommendations of the arbitrator shall be final and binding on the parties to this Agreement; however, the authority and responsibility of Employer as provided by the Charter of the City of Tulsa shall not be usurped in any manner unless specifically amended or modified by this Agreement.

Section 7.10 The arbitrator's authority is strictly limited to the interpretation and application of the terms of this Agreement. The arbitrator shall have no jurisdiction to establish a new agreement or any variation or modification of the present Agreement, nor to arbitrate away, in whole or part, any provision of this Agreement or any supplements thereto or amendments thereof; nor shall any wage structures or structure of job classifications covered by this Agreement be subject to arbitration. This shall not preclude individual wage grievances.

Section 7.11 It is specifically and expressly understood that taking an appeal to arbitration constitutes an election of remedies and a waiver of any and all rights by the appealing party and all persons it represents to litigate or otherwise contest the appealed subject matter in any court or other forum. This Section shall not apply to the judicial enforcement of an arbitration award.

Section 7.12 The cost and expenses incurred by the impartial arbitrators shall be shared equally by Union and Employer. If a transcript of the proceedings is requested, then the party so requesting shall pay for it.

Section 7.13 Two (2) representatives from Union and the grieving Employee may be present at the arbitration hearing without loss of pay for time spent in arbitration if the hearing is scheduled during the Employee's normal work period.

Section 7.14 All issues in a particular arbitration, including issues relating to arbitrability, shall be heard in a single hearing. If additional information becomes available that could affect the second step decision, the parties agree to meet and discuss such information prior to arbitration.

Section 7.15 When an Employee receives written notification of disciplinary action that would result in a monetary loss to the Employee, or the Employee elects the grievance procedure in the instances of removal, demotion or discharge, the Employee or Union shall have twenty (20) calendar days to grieve the action and the grievance will be filed at Step 2 of this procedure. The Human Resources Director or his/her designee shall conduct a hearing as set forth in Step 2 within ten (10) calendar days of receipt of the grievance and shall issue a written answer within ten (10) calendar days of the hearing.

ARTICLE 8 - DUES DEDUCTION

Section 8.1 Employer agrees to make payroll deductions of Union dues from the paychecks of dues-paying members of Union who have signed and have on file with Employer a voluntary, effective, authorized, and approved Union dues payroll deduction card.

Section 8.2 In the event Union dues (or special assessment fee) are increased in accordance with the Union constitution and bylaws, Union shall notify Employer of such increase thirty (30) days in advance of the effective date of said increases in dues.

Section 8.3 The payroll deduction shall be revocable by the Employee notifying City Payroll in writing. Union shall be notified by City Payroll within five (5) business days of receipt of notification of any revocation.

Section 8.4 The Employer agrees to make payroll deductions of an IAFF payroll assessment fee in addition to those provided in Section 8.1 from the paychecks of dues-paying members of the Union. The assessment shall be applicable to members who have signed and have on file with the Employer a voluntary, effective, authorized and approved payroll deduction card. The special assessment shall be revocable by the Employee notifying Employer in writing. The Union shall be notified of any revocation.

Section 8.5 Union shall indemnify, defend, and hold Employer harmless against any claims made and against any suits instituted against Employer on account of payroll deduction of Union dues and payroll assessments per Section 8.4 above.

ARTICLE 9 – WAGES

Section 9.1 Effective July 1, 2011, all Employees shall be placed on the FY 11-12 pay chart (Appendix A) at the same pay grade and step placement they had on June 30, 2011. All Employees shall retain their previous S.P.I. dates, based on the Employee's hire date, and be eligible for any remaining and available step increases within their rank on their appropriate S.P.I. dates as previously established.

Section 9.2 New FD-01 Employees shall be eligible for the C step of the pay chart upon assignment to field operations. Thereafter, FD-01 C step Employees shall be eligible for a S.P.I. increase to the next highest pay step after a period of at least six (6) months within the C step or after attainment of any higher FD-01 pay step, if and only if they have gained Relief Driver Certification for the first time. FD-01 Employees failing to achieve Relief Driver Certification, shall top out within the FD-01 rank at the L step of the pay chart. These Employees shall be ineligible for any further increases without obtaining Relief Driver Certification. Employees shall normally be eligible for S.P.I. increases upon completion of twelve (12) months within any pay step.

Section 9.3 Employees who are promoted to a higher pay grade shall be placed in new pay grade one pay step lower than the previous pay step. Such advancement will provide at least a five percent (5%) increase in their monthly base pay unless at the top of the range. Employees

assigned to an FD-04 position shall be paid at the lowest step which provides an increase of at least five percent (5%) per month over their previous base pay. The parties agree a 5% differential shall be maintained between FD-03 M-Step and FD-04 M-Step. Upon promotion, Employees shall maintain their current SPI dates and shall be eligible for any available SPI movements on that date, regardless of the date of the Employee's (last) promotion. The parties agree base pay shall be considered to include any step increase gained by Relief Driver Certification as an FD-01.

Section 9.4

- A. The parties agree that a "market comparison approach" with an agreed upon universe of cities shall be used as one of the primary factors to determine appropriate wage levels for Employees per the provisions of 11 O.S. 51-109. In conjunction with this market approach, the parties have agreed to utilize a City of Tulsa wage comparison with market City wages which shall include: a review of minimum and maximum pay step rates by rank, a review of the weighted average pay rates actually paid to market city's Fire personnel by rank, the number of pay steps and pay step movements utilized by market Cities, the cost of living within the other market cities as compared with the City of Tulsa, a review of any special pay practices such as non-utilized steps or unusual pay step movements which may appear in market pay schedules, and a review of any additional benefit dollars which may have been combined into and included within market city pay schedules.
- B. This "market approach" should not be prospectively applied so as to mechanically dictate a particular wage level; the unique characteristics of the City of Tulsa, including, but not limited to, available and projected revenues, must remain crucial ingredients in the determination of a proper and reasonable level of wages and benefits for Firefighter personnel.

Section 9.5 The universe of cities used to determine the market for FY 12-13 shall be: Austin, TX; Fort Worth, TX; Kansas City, MO; Tucson, AZ; Nashville, TN; Omaha, NE; St. Louis, MO; Oklahoma City, OK; Wichita, KS; and Dallas, TX. Upon mutual consent, the universe of cities may be expanded or modified. Implementation of wage scale adjustments based on the market review as well as other pertinent compensation factors is predicated on the City's ability to pay and appropriated revenues.

Section 9.6 The parties agree that following a survey of the agreed to universe of cities to be conducted prior to March 1, 2012 by the City with the assistance of the Bargaining Agent, the parties will meet and confer to determine the relative standing of each job classification within the Bargaining Unit as reflected in the universe for the purpose of determining one of the guidelines for any (appropriate) adjustments in compensation and benefits.

Section 9.7 The Employer shall pay three percent (3%) of each Employee's pension system obligation to the Oklahoma Firefighter Pension and Retirement System (OFPRS). It is understood this 3% will reduce the contributions for Employees from the normal pension

contribution paid by each Employee under State statutory requirements. The parties understand and agree that all future wage surveys shall include an adjustment of the Employees' market wage position to reflect the City's 3% OFPRS contribution which shall be added to and considered as a part of base wage for all pay steps and average wage comparisons. All Employees in "Plan B" shall receive a 2.3% monthly retirement stipend based on the Employee's current monthly base wages.

ARTICLE 10 - HOURS OF WORK AND OVERTIME

Section 10.1 Work Schedules

- A.** Fire Suppression Employees: Effective July 1, 1997, under the 207(k) exemption of the Fair Labor Standards Act, the work period for all Employees assigned to a 24 hour shift schedule is established as a twenty-seven (27) day work cycle. The work schedule for Employees whose primary duties involve fire suppression and the delivery of other emergency services shall be a twenty-four (24) hour tour of duty, followed by forty-eight (48) hours off-duty. Each fire suppression Employee shall receive an Hours Reduction Shift (HRS) in accordance with the current HRS Schedule and be off duty for one twenty-four (24) hour shift during each fourteen (14) shift HRS cycle which results in a fluctuating number of hours worked within a given work period.
- B.** When a vacancy occurs in a FD-01 Employee's Hours Reduction Shift (HRS) position, the most senior time in service FD-01 Employee assigned to the apparatus shall have the option to select the open/vacant HRS position in his/her apparatus assignment. This option will not allow a less senior FD-01 Employee currently assigned to an apparatus to be moved from his/her existing HRS assignment.
- C.** An Hours Reduction Shift (HRS) within the same HRS cycle may be temporarily moved for personal reasons at the Employee's option within the HRS cycle by mutual agreement of the Employee and his/her District Chief. The request shall be communicated through the Employee's chain of command.
- D.** Administrative, Specialized and Other Employees: The work schedule for administrative, specialized and other non-fire suppression Employees shall consist of established and regularly recurring tours of duty normally constituting forty (40) hours of work within a seven (7) day work period.

Section 10.2 Computation of Overtime

- A.** Statutory Overtime: Time worked by any fire suppression Employee assigned to work a twenty-four (24) hour shift schedule in excess of one hundred ninety-two (192) hours when an "Hours Reduction" shift occurs or in excess of two hundred twelve (212) hours when no "Hours Reduction" shift occurs within a twenty seven (27) day work period shall be compensated at time and one-half the Employee's

regular rate of pay. Time spent on paid leave except compensatory time shall count as hours worked for the purpose of computing overtime under this section 10.2.A.

- B.** Shift Overtime: Time worked by any Employee in excess of a scheduled tour of duty shall be counted toward the total hours worked in a work period in computing overtime, except that work time expended for voluntary relief or voluntary holdover time at the end of a tour of duty (short term duty exchange), shall not be considered overtime. Time spent on paid leave except compensatory time shall count as hours worked for the purpose of computing overtime under this section 10.2.B.
- C.** There shall be no pyramiding of overtime.

Section 10.3 Compensation of Overtime

- A.** Fire suppression Employees working a twenty-four (24) hour shift schedule shall be compensated in accordance with the requirements for overtime as established by the 207(k) provisions of the FLSA as amended and in accordance with Section 10.2 (A) and (B) above. Compensation for overtime hours worked shall be calculated on a half-time basis in accordance with 29 C.F.R. Sec 778.114, except as provided in Section 10.8 of this Article.
- B.** The rate used for computing overtime compensation for twenty-four (24) hour shift Employees shall be based on Appendix A of this Agreement. The half time method is computed as follows:
 - 1. Work Period Salary = Annual Salary / Number of Work Periods
 - 2. Regular Rate = Work Period Salary / Number of Hours Worked
 - 3. Half-Time Premium = Regular Rate X 1/2
 - 4. Half-Time Pay = Half-Time Premium X number of hours worked between 204 and 212 hours inclusive.
- C.** Administrative, specialized and other exempt salaried non-fire suppression Employees shall be compensated at a premium rate of time and one-half the Employee's straight time pay or by the accrual of compensatory time off at the rate of one and one-half (1 ½) hours of compensatory time for each one (1) hour of overtime worked. The hourly rate for computing overtime compensation for these employees shall be based on Appendix A of this Agreement.

Section 10.4 Employees eligible to accrue compensatory time shall advise the Chief of the Fire Department or his/her designee, within seven (7) calendar days after overtime is worked of their desire to be compensated in cash or by accrual of compensatory time as described in Section 10.3.C of this Article.

Section 10.5 Employees working a seven (7) day work period may accrue a maximum of forty (40) hours of compensatory time off. Employees working a twenty-seven (27) day work period may accrue a maximum of forty-eight (48) hours of compensatory time off. Upon reaching the maximum accrual, all subsequent overtime work shall be compensated in pay at the rate of time and one-half the Employee's straight-time pay. Upon expenditure of compensatory time which decreases the amount of accrued compensatory time off to an amount which is less than the forty (40) or forty-eight (48) hours maximum, as applicable, overtime work may be compensated by the accrual of compensatory time until the forty (40) or forty-eight (48) hour maximum limit, as applicable, is reached.

Section 10.6 The granting of compensatory time off shall be made by the Chief of the Fire Department, or his/her designee, subject to the provision that the granting of compensatory time off shall be done at such a time which will not detrimentally affect the operation of the Fire Department.

Section 10.7 Time spent on activities related to the Fire Department Personnel Committee shall be compensated. Employees shall suffer no loss in pay when Personnel Committee activities are scheduled during the Employees' regular work hours. Fire Department Personnel Committee members who are otherwise eligible for overtime, shall be compensated in pay or compensatory time at the rate of one and one-half (1 1/2) hours for every one (1) hour worked while testing and performing related duties outside their regularly assigned work hours.

Section 10.8 Employees assigned to a twenty-four (24) hour shift schedule who have been relieved from duty and have left the work premises and are subsequently called in for unscheduled overtime work shall be compensated for the number of hours actually worked at the work site, but in no event shall such time be less than three (3) hours to be paid at a rate of time and one-half the Employee's straight time hourly rate. Non-fire suppression Employees shall receive a minimum of two (2) hours of overtime when assigned to work overtime based on such recall, to be paid at a rate of time and one-half the Employee's straight time hourly rate. Overtime work shall be rounded to the nearest one-quarter (1/4) hour, such that any time worked which cannot be evenly divided by 15 shall be dropped.

Section 10.9 When possible, Employees will be required to expend compensatory time prior to termination. In the event that all compensatory time has not been expended at termination, Employees shall be paid for accrued compensatory time off to a maximum of forty (40) hours, at their final regular rate of pay at the time of termination.

Section 10.10 Employees in the classification of District Chief, FD-05, are included in the overtime provisions of the FLSA 207K exemption and are entitled to overtime compensation as described in Section 10.3 A and 10.3 B. Employees in the classification of Assistant Chief, FD-06, and above shall be excluded from all the overtime provisions of this Article except when recalled to an emergency as determined by the Fire Chief. When recalled for emergency, those Employees shall receive overtime at a straight time rate.

Section 10.11 Employees in the FD-06 pay grade and above shall not be eligible for overtime compensation. It is recognized that such Employees normally will devote more work time than

their regularly scheduled hours and that their effectiveness is measured by attainment of established goals and objectives rather than by expenditure of time and effort. Due to this, necessary time off may be granted by the Fire Chief for personal business as the work situations permit, and upon consideration of the Employee's effectiveness in carrying out assigned responsibilities.

Section 10.12 Employees within FD-04 Fire Investigator should refer to the MOU dated January 29, 2002 that provides certain specific and controlling terms and conditions of employment related to those jobs (not directly reflected within the language of this Agreement).

3. Such leave shall be subject to approval by the Fire Chief who may, at his discretion, require full or partial makeup of time spent away from the job. Education leave guidelines shall be established by the Fire Chief with input from the Union and shall be administered in a fair and consistent manner. It is understood granting of such leave shall not impede the operations of the Fire Department.

Employees provided or holding E.M.T. training within academy training programs since January 1, 1994 shall be required to maintain E.M.T. certification and receive an allowance of seventy-five dollars (\$75) per month for payment of their total E.M.S. certifications. Other Employees holding E.M.T certification shall be eligible upon application to the Fire Chief to receive an allowance of seventy-five dollars (\$75) per month for payment of their total E.M.S. certification. Such stipend shall not be cumulative as regards the forty dollars (\$40) per month stipend provided to those Employees who hold only the FR-D level certification. The E.M.T stipend is not to be cumulative as regards to other E.M.S stipends provided with Section 12.7. Employees receiving the E.M.T stipend shall be required to maintain E.M.T level certification through appropriate recertification processes.

Section 12.3 The parties further agree that the City shall make every reasonable attempt to provide and/or make available the quality assurance, continuing support and training that will result in and is required for an efficient and effective EMT program as well as providing similar support to the ALS/Paramedic program. The parties also agree that to facilitate and encourage the efforts of Employees who wish to voluntarily gain EMT, EMT-I and Paramedic level certification, the City and the Union shall cooperatively work to seek establishment, availability and continuation of such training through local accredited college or technical training programs.

Section 12.4 The Employer shall also provide additional academy level training for Employees volunteering for EMT certification and hired prior to January 1, 1994 who desire to initially become EMT certified, or to those who need recertification. Such initial EMT training openings shall be made available to these Employees to the extent possible as determined by the Fire Chief and based upon the resources and resource demands impacting the Fire Department and the Training Academy. The following factors in the order listed shall be utilized to determine the selection of volunteers for EMT training: (1) the available number of training openings which can be offered each year, (2) shift assignment (to ensure some consistency in coverage), and (3) seniority.

Section 12.5 The Employer shall provide for the payment of all levels of EMT certification (including paramedic certification) and re-certification fees for Employees required to possess the certification(s) as part of their job duties, including approved refresher courses as required to maintain certification and clinical privileges. Any paramedic who wishes to keep his/her EMT-P certification current but not participate in the ALS/Paramedic program shall be financially responsible for the difference in licensing fees. Any Employee holding an E.M.S. certification who has his/her clinical privileges suspended or revoked shall have his/her E.M.S. allowance terminated beginning the pay period following such suspension or revocation and continuing until such time as evidence is properly provided to the Fire Chief which establishes that his/her clinical privileges and certification have been reinstated.

Section 12.6 The Fire Chief, acting upon the recommendations of the Labor Management Committee and with Mayoral approval shall determine and establish the ALS program requirements, the number and placement of ALS engine companies, and designate those numbers of Employees who are needed to provide staffing for department Advanced Life Support (ALS: EMT-I and Paramedic) emergency medical services. The parties agree that the minimum number of paramedics needed to provide staffing for five ALS Engine Companies is twenty-four (24) paramedics. Each additional ALS Engine will require increasing the minimum number of paramedics needed to provide staffing for the ALS/Paramedic program. Employees who volunteer and are accepted by the Fire Chief for such programs may be placed on a 40 hour work week while taking necessary ALS training and have associated certification program costs and training provided by or through the Tulsa Fire Department. It is understood by the parties that Employees working within the Fire Paramedic role shall be subject to station/company relocation by the Fire Chief or designee on a shift basis to various ALS Engine Companies as necessary to maintain coverage in each designated area. Factors (in order listed) which shall be included for selection decisions for this program shall be (1) the available number of openings determined by the Fire Chief, (2) rank selection ratio, (3) paramedic preference (over EMT-I), (4) shift assignment and (5) seniority. Employees will not be selected for this program if known to be within their last five years of employment. Additionally, Employees will only be selected within a rank selection ratio, which is not in excess of those personnel promotional rank ratios normally found in Tulsa Fire Department staffing.

Section 12.7 A paramedic stipend of five percent (5%) of the monthly base wage shall be provided to those Employees in the FD-01, FD-02, FD-03 ranks as well as Fire Department Training Academy personnel and EMS Officers who are selected to be within the ALS/Paramedic program during their first four (4) years within the ALS/Paramedic program. A paramedic stipend of seven and one-half percent (7.5%) of their monthly base wage shall be provided to those Employees in the FD-01, FD-02, FD-03 ranks as well as Fire Department Training Academy personnel and EMS Officers who are selected to be within the ALS/Paramedic program after four (4) years but prior to completion of eight (8) years within the ALS/Paramedic program. A paramedic stipend of ten percent (10%) of their monthly base wage shall be provided to those Employees in the FD-01, FD-02, FD-03 ranks as well as Fire Department Training Academy personnel and EMS Officers who are selected to be within the ALS/Paramedic program after completion of eight (8) or more years within the ALS/Paramedic program. This stipend is not to be cumulative as regards other EMS stipends provided within Section 12.2. Employees must hold a paramedic license and pass the paramedic protocol test for

Tulsa as administered by the Medical Control Board physician to be eligible for this stipend. EMT-I and EMT-P certification shall be considered equivalent based on approval of the Chief and Medical Control Board physician and, contingent upon such approval, shall receive the same stipend. The parties agree eligible Employees shall commence receipt of this stipend upon initiation of the actual program, which shall be considered to be the pay period in which the first Paramedic Training class is initiated. Employees shall continue to receive this stipend while actively participating in the ALS/Paramedic program and unless and until such time as the program is discontinued.

Section 12.8 Employees who have entered the ALS/Paramedic program prior to July 1, 2004 may elect to cease participation in the program provided that their departure does not cause the number of program participants to drop below the program minimum(s) per Section 12.6. If more than one participant requests to leave the program and if minimum staffing issues should arise, seniority will be the factor used to determine which participant will be allowed to leave the program to ensure minimum staffing is maintained. Effective July 1, 2004, Employees who enter the ALS/Paramedic program shall be required to maintain their EMT-P or EMT-I certification for a minimum of nine (9) years. Additionally, employees hired with EMT-P (or EMT-I) certification will be subject to the same nine (9) year program requirement if assigned to the ALS/Paramedic program by the Fire Chief. Employees who enter and then drop out of the ALS/Paramedic programs after initial certification or fail to re-certify after obtaining initial certification shall lose their EMT-I or EMT-P Pay stipend and be in violation of these job requirements. This job requirement violation does not apply to Employees who are determined to be medically or psychologically unable to perform Paramedic duties based on a qualified medical examination through the City Physician or through an appropriate medical referral, or those Employees who are removed from Paramedic duties by the Fire Chief due to promotion or reassignment by the Fire Chief to an FD-04 position.

Section 12.10 Employees in the rank of FD-03 who are assigned to an FD-04 position shall have additional lead/supervisory responsibilities after an initial sixty (60) day period within the new assignment. Said additional lead/supervisory duties shall be determined by the parties Labor Management Committee. Section 12.11 FD-05 Employee's assigned to a seven (7) day work period shall receive an additional assignment stipend equal to seven and one-half percent (7.5%) of the Employee's monthly base wage rate.

ARTICLE 13 - HEALTH AND WELFARE PROGRAMS

During the term of this Agreement the Health and Welfare programs for all bargaining unit members and certain retirees shall be administered with a separate plan apart from other City of Tulsa plans under the jurisdiction of the Union and the Tulsa Fire Fighters Health and Welfare Trust. "Certain retirees" shall mean those Firefighters retiring after July 1, 1994 and any previous active City benefit plan retirees who exercised the option to leave with the Union at the time the Trust was established.

These programs shall be defined to include medical health benefits programs, dependent dental health benefits programs, and dependent life insurance programs. The City's flex plan program shall be continued for Employees as part of this Agreement. The Union shall take full responsibility and all liability (including COBRA as applicable) connected to and regarding the Union providing Employees and certain retirees with substitute Health and Welfare programs. The Union shall hold the City of Tulsa harmless for the administration of these programs.

Section 13.1 A Voluntary Employee's Beneficiary Association Trust (the Trust) will be maintained to ensure those dollars paid to the Bargaining Unit by the City for Health and Welfare Program benefits are preserved and protected and used only for the provision of Health and Welfare Program benefits for sworn Fire Department employees, retirees and eligible dependents.

Section 13.2 The City Clerk shall maintain a copy of the initial Trust Indenture documents and shall be notified of and receive copies of all proposed amendments to the Trust Indenture.

Section 13.3 The City shall pay the Bargaining Unit via the Trust those City Health and Welfare contribution dollars which would normally be paid for Firefighters, Firefighter retirees and all eligible dependents had they remained within the City's Health and Welfare programs. This City contribution amount shall be calculated by multiplying the City's FY 94-95 single and dependent Health and Welfare contribution rate for Firefighters and retirees times the average number of Firefighters and Firefighter retirees electing the specific single or family medical, dental and life insurance coverage options over the previous five (5) years, effective FY 89-90 through FY 93-94, which shall establish the proper single and dependent user percentage multipliers. However, the amount paid to the Firefighter Trust on a per Employee basis will be adjusted to the same amount paid for other City employees.

Section 13.4 The retiree insurance contribution by the City of Tulsa shall be increased to an amount equal to twenty-five percent (25%) of the normal single employee rate. This amount shall apply to rates for those individuals retiring on or after July 1, 1998. The City contribution amount for individuals retired prior to July 1, 1998 shall remain at the prior level of the normal single employee rate. This agreement on future retiree rate contributions to the 25% level is not intended to alter the parties' relationship through the Employee Benefits Committee.

Section 13.5 The City's contribution to the Union's health and welfare programs shall be direct wired monthly to the financial institution which holds the Trust's account. The Union shall limit requests for changing the Health and Welfare Trust's designated financial institution and resultant changes in the City's transfer of contributions to said account to no more than three (3) changes within any one year period. The Union shall provide the City with at least ten (10) working days advance notification of any such change of the financial institution along with the financial institution's name, address, the new assigned Health and Welfare Trust account number, and financial institution's wire transit number.

Section 13.6 The parties agree no other funds shall be co-mingled with the City's dollar contributions to the "Trust" for sworn Fire personnel health and welfare monies except those sworn Fire Department employee contributions which the City shall deduct from employee

paychecks and wire to the “Trust” account on a monthly basis. This shall not be considered to preclude retiree and eligible dependent monies for Health and Welfare benefits from being commingled with Fire employee and City contributions. Additionally, any full time employee(s) of the Union may likewise be covered under the Trust.

Section 13.7 The parties agree the City shall have an appointed designee of the Mayor, confirmed by the City Council, who will sit as a monitor and an advisor on all Trust Board Meetings. The designee will not only vote on Trust Board matters, but will provide input and suggestions as relates to Health and Welfare Program decisions of the Trust Board including, but not limited to, program changes and options, provider selections, provider contract stipulations, employee information packets, etc.

Section 13.8 The City Clerk will receive from the Bargaining Agent, on an annual basis, a financial accounting statement for purposes of review and audit of those City and employee, retiree and dependent contributions which have been paid into or dispersed out of the Trust account. Said statement shall include information as to where any disbursements have been made and for what purpose.

Section 13.9 The parties agree Cadet Firefighters shall be included within the Union administered health and welfare programs. The City shall include Cadet Firefighters in calculations of the City’s health and welfare contributions to the Union.

Section 13.10 The parties agree that, based on these Health and Welfare Plan contributions being Employer provided and specifically for the purpose of providing sworn Fire personnel, Fire retirees and dependents with such Health and Welfare benefits, employee deductions by the City shall be made in a manner so as to allow sworn Fire employees with all rights granted to other City employees under IRS 125 and its related provisions and regulations authorizing the City’s Cafeteria plan. However, the City shall be indemnified by the Union from any tax liability arising from the administration of IRS 125 and its related contributions for sworn Fire personnel covered by this Agreement and the Union.

Section 13.11 In view of all the facts, this Agreement, and the relationship between the City, the Union and the Trust, the City will provide payroll administrative support in the form of deduction of sworn Fire employee (and dependent) contributions for the Health and Welfare Programs to go into the Bargaining Unit’s Trust. Said deductions and contributions amounts shall be based on rates provided by the Union.

Section 13.12 Three (3) members of the Tulsa Fire Fighters Health and Welfare Trust Board shall normally be granted up to five (5) hours duty time off with pay to attend Board meetings to conduct the business of the Trust, provided such meetings occur during the members regularly assigned duty time. Notice of such leave shall be forwarded to the Fire Chief at least ten (10) days in advance when possible.

ARTICLE 14 - CLOTHING ALLOWANCE

Section 14.1 Employer shall provide each Employee with such items of protective gear set out in Administrative Operating Procedures 308.11 for the government of the Tulsa Fire Department.

Section 14.2 In addition to the above protective gear, Employees shall receive five hundred sixty dollars (\$560.00) for their first clothing allowance, five hundred fifteen dollars (\$515.00) for their second clothing allowance, and four hundred fifty dollars (\$450.00) per year thereafter. The uniform allowance for each Employee shall be deposited in an account established with the vendor selected by the Fire Chief through competitive bid. All Employees shall be required to possess and maintain a Class A Dress Uniform by July 1, 2013.

Section 14.3 Employees not in the Firefighting Division and Chief Officers shall receive a clothing allowance of four hundred seventy dollars (\$470.00) per year to be deposited in an account established with the vendor.

Section 14.4 Employees shall receive one hundred fifty dollars (\$150.00) per year in addition to the amounts specified in Section 14.2 and 14.3 for the purchase of fitness clothing and apparel.

Section 14.5 Employees who sustain damage to their prescription eye wear and watches while in the performance of their duties as a Tulsa Firefighter which would warrant the replacement of such, may submit a request form to the Fire Chief for approval of the replacement of the damaged items. The replacement cost shall not exceed one hundred dollars (\$100.00) towards the purchase of eye wear or thirty dollars (\$30.00) for watches.

ARTICLE 15 - LINEN AND STATION SUPPLIES

Section 15.1 Employer shall contribute a specified amount of money to each 24 hour shift duty station in accordance with the following guidelines. The Fire Station applicable linen monies allowance shall be calculated by multiplying the number of Employees at each Fire Station by twelve dollars (\$12.00). Such money shall be paid quarterly and used solely for the purpose of providing and maintaining linens and/or necessary cleaning supplies for that station. Further, each station shall receive an additional thirty dollars (\$30.00) per quarter for the purchase and maintenance of a video monitor and a DVD/VCR.

Section 15.2 Such monies shall be maintained in an account with separate accounting procedures and will be subject to periodic audit by the Fire Chief or by Employer through an authorized representative.

Section 15.3 Any additional fire stations which are put into operation during the term of this Agreement shall receive an equivalent amount of money for linens and cleaning supplies based upon the number of Employees to be assigned to such station. Any change in the number of Employees assigned to a fire station will cause the amount of money which is allocated to that station to be adjusted accordingly.

ARTICLE 16 - ANNUAL LEAVE

Section 16.1 Employer agrees that Employees of the bargaining unit shall earn paid annual leave as follows:

<u>No.Yrs. Service</u>	<u>7 Day Work Period 8 hour shift Employees Mo.Accrual/Annual</u>	<u>27 Day Work Period 24 hour shift Employees Mo.Accrual/Annual</u>

This shall be done in such a manner that it will be possible for an Employee to actually have forty-eight (48) times his/her monthly accrual rate unexpended until such time the scheduled leave is taken by the Employee during the current year. However, under no circumstances will more than twenty-four (24) times the monthly accrual rate be paid upon separation from the Tulsa Fire Department as provided for in Section 16.10 of this Article. Annual leave shall be accrued on a completed calendar month basis. In accordance with the Memorandum of Understanding for FY 10-11, the maximum annual leave accrual amounts shall be temporarily increased by one hundred and two (102) until December 31, 2013.

This shall be done in such a manner that it will be possible for an Employee to actually have fifty-eight (58) times his/her monthly accrual rate unexpended until such time the scheduled leave is taken by the Employee during the current year. However, under no circumstances will more than thirty-four (34) times the monthly accrual rate be paid upon separation from the Tulsa Fire Department as provided for in Section 16.10 of this Article. Annual Leave shall be accrued on a completed calendar month basis.

Section 16.5 The parties agree maximum annual leave accrual amounts established herein shall apply to Employees while on Injury Leave. Employees who were unable to schedule and/or utilize annual leave due to Injury Leave timeframes shall be allowed to reschedule annual leave with their District Chief with final approval by the Fire Chief or his/her designee.

Section 16.6 New Employees shall be eligible to expend annual leave after completion of six (6) months continuous service within the Tulsa Fire Department. Such Employees may schedule, by seniority, the amount of annual leave which they have accrued on the January 1st following their date of hire. Such Employees shall also be accredited with holidays that occur after their date of employment and before January 1st. These days may be scheduled prior to January 1st with the approval of their District Chief or may be added to their accrued annual leave and scheduled January 1st.

Section 16.7 Scheduling of annual leave shall be by seniority and shall be approved by the District Chief with final approval by the Fire Chief; however, annual leave which is requested by the Employee which is in excess of the Employee's annual accrual rate as of January 1 of such year shall not be scheduled by seniority. Such excess leave shall be scheduled at least sixty-two (62) hours in advance at a time mutually agreed upon by the Employee and Employer. Employees may obtain split annual leave, provided that Fire Department operations are not impeded by the granting of such requests. If an Employee requests annual leave less than sixty-two (62) hours in advance and it is available, it shall be granted to the Employee unless it would cause additional callback overtime.

Section 16.8 Employees may not schedule more annual leave than the total amount accrued per their yearly accruals in their initial scheduling.

Section 16.9 In the event an Employee becomes ill and is confined to bed or hospital for three (3) consecutive calendar days or longer while on annual leave or holidays, he shall notify the Fire Chief, and upon returning to work shall be entitled to have his status changed from annual leave or holiday leave to sick leave for such time as he was confined to bed or hospital by his physician upon providing a letter from his physician certifying to his illness. Such Employee shall be entitled to reschedule such annual leave or holiday time in accordance with Fire Department regulations concerning vacations.

Section 16.10 Upon separation from the Tulsa Fire Department, Employees shall be paid for unused annual leave credited to them on the first of the month which coincides with or immediately precedes the effective date of such separation, as provided for in Section 16.3 (27-day work period employees) or Section 16.4 (7-day work period employees) of this Article. Payment shall be at the hourly rate indicated in Appendix "A", which corresponds to the Employee's current pay grade and step. Employees must have completed one full year's service to be eligible for annual leave pay. Employees who are separated for proven theft, embezzlement, or deliberate destruction of property shall be ineligible for annual leave pay.

Section 16.11 Employees who transfer from a position which has a 27 day work period, 24 hour shift schedule, to a position which has a 7 day work period, 8 hour shift schedule, shall have their accrued number of hours of annual leave decreased by dividing the total accrued by 1.3. The Parties also recognize that cooperative efforts in ensuring proper fitness, safety and wellness of Employees will result in the most beneficial and accepted approach to the matter of Firefighters physical fitness and related program criteria.

Section 30.2 During the term of this Agreement, Employer and Union agree to appoint a Health, Wellness, and Safety Committee (Committee) with three (3) representatives each

appointed by Employer and Union. In addition to the above representatives, a Committee Chairperson shall be appointed by the Fire Chief and the Chairperson will normally act as a non-voting committee member except in cases involving a tie vote on any given matter. In addition, the City Physician will act as an advisor to Committee as requested by the Chairperson.

Section 30.3 The Committee shall be responsible for identifying and responding to safety and health needs of the Fire Department and to consider issues as submitted by the Union's Health and Safety Committee. The Committee shall meet at least quarterly at times and locations designated by the Chairperson and shall present its findings and recommendations in writing to the Labor/Management Committee.

Section 30.4 The parties agree that the initial Physical Fitness Testing Program shall be mandatory for all Employees hired after July 1, 1995, and voluntary for those Employees hired prior to July 1, 1995. The purpose of the voluntary nature of the program for incumbent Employees hired prior to the effective date of this contract is to ensure no Employees are negatively impacted by employment conditions which they were unaware of at the time they became regular Employees of the City of Tulsa. Said initial program shall be subject to the grievance/arbitration procedure as set forth under Article 7 of this Agreement but only as concerns Employee issues which may arise as to any possible discriminatory effect of the program. Upon successful completion of the physical fitness portion of the program, the participants will have the opportunity to receive the traditional incentive of twenty-four (24) hours off or twenty-four (24) hours pay. The Employee will be allowed to retest, at least once, after working with the Fitness Coordinator or Specialist for a period of three months. If the Employee is still not able to meet the maintenance level, the Fire Chief will review the Employee's performance and expected improvement.
- B. **Voluntary Participants:** Employees hired prior to July 1, 1995 are encouraged to voluntarily take part in every phase of the Physical Fitness Program. However, the PAT is optional for voluntary participants.
- C. **Assessment results for participants shall be confidential (restricted to City Physician, Fitness Coordinator or Specialist, and Fire Chief) and kept on file only with the Health and Fitness Coordinator. Program participants shall be provided workout equipment in accordance with the P.F.T. Program. Participants shall be provided time during normal working hours to perform their prescribed exercises and/or approved exercises and in a manner so as to not interfere with their emergency response duties. Employees will be afforded one (1) opportunity**

while on duty to practice the PAT prior to testing during the Employee's initial program year. Employees that desire the incentive must complete all phases of the program and must reach the incentive level on the PAT. However, all Employees shall remain subject to medical or other types of review at the discretion of management to ensure the Employee's fitness for duty within the Fire Department.

Section 30.5 The Committee shall provide a forum for the review and consideration of problems, complaints, or needed program improvements and recommend solutions to the Fire Chief. The parties further agree that any future changes to the initial P.F.T. Program as implemented shall be subject to normal grievance/arbitration procedures or collective bargaining at the request of the Union or Employer as allowed under State law.

Section 30.6 The Committee will also review and recommend policies, procedures, rules, regulations, manning requirements and programs to satisfy and correct safety and health needs. In addition, the Committee will be responsible for recommending cost reduction programs and loss prevention measures. The parties agree the Health, Wellness, and Safety Committee shall be expected to provide a semi-annual written recommendation, status report and any related finding as regards staffing standards for the Tulsa Fire Department. Findings of this committee or any subcommittee thereof shall be approved as to final content through the joint Labor/Management Committee with a copy provided to the Mayor.
