

## Summary of the City of Broken Arrow December 2025 to February 2026 Pretreatment Report to the RMUA Board

City of Broken Arrow pretreatment staff prepared a quarterly report to the Regional Metropolitan Utility Authority (RMUA) outlining pretreatment activities for significant industrial users, commercial users, and food handling establishments discharging wastewater to the Haikay Creek Wastewater Treatment Plant. The activities listed are for the months of December 2025 through February 2026.

The following is a summary of the report:

### **Fats, Oil and Grease Pollution Prevention:**

There were 103 grease interceptors inspected in this reporting period. Staff inspected the grease interceptor, looked at manifests for grease interceptor maintenance, and discussed best management practices for pollution prevention with management. Facilities that had interceptors that needed attention were asked to have maintenance performed within 15 days. Two notices of violation for interceptor repair/replacement were issued to facilities in this reporting period. Three notices of violation were issued for insufficient service. Two interceptor repair/replacements were completed during this reporting period.

### **Industrial Pretreatment:**

All mandatory industrial user monitoring reports were received for this reporting period. Surcharges for biological oxygen demand (BOD), total suspended solids (TSS), and oil & grease above residential thresholds were issued to Unifirst each month for a total of \$3,031.17 and Communication Graphics for a total of \$0.00

Compliance reports were received from five industries. Annual inspections and/or control authority sampling will resume in April 2026.
