Mitigation of Impact

Please describe your plan for cleanup and removal of recyclable goods, waste and garbage during and after your event: We have a group that cleans the area before we begin. Once our service time starts we have a group of approx. 12 that pick up trash under the bridge, down the street, and over to the day center. At the end of the night we inspect the area. All trash is loaded and taken back to the dumpster at our building. We will occasionally take pictures to verify that they area is always better when we leave it then how we found it. You may contact me for those pics.
