ADDENDUM NO. 2
TO
PROJECT NO. SP 20-03 TULSA ZOO RAINFOREST ROOF REPLACEMENT

This Addendum No. 2 consisting of (3) items, submitted by Cyntergy, is hereby made a part of the Contract Documents to the same extent as though it were originally included therein, and shall supersede anything contained in the Plans and Specifications with which it might conflict. **This entire Addendum shall be attached to the Index Sheet of the Contract Documents, recorded on Page - 4a of the proposal, and submitted with bid. Failure to do so shall result in the bid being deemed non-responsive.**

This Addendum No. 2 consists of the following:

1. The attached documents list the detail items that have been modified in Addendum No. 2. These documents shall be inclusive and apply to this project.

All other provisions of the Plans and Specifications shall remain in full force and effect.

Addendum No. 2

Date: March 25, 2020

Project: TULSA ZOO RAINFOREST ROOF REPLACEMENT
   Project No. – SP 20-03

To: Max Wells

This Addendum No. 2, consists of clarifications to a responses to RFI's #4 and #11 made in Addendum No. 1 and Specification 08 63 00 that are a part of the Contract Documents to the same extent as though it were originally included therein, and shall supersede anything contained in the Plans and Specifications with which it might conflict.

This Addendum No. 2 consists of the following:

RFI Questions/Response Clarifications

1. RFI #4: Please provide a spec on the ice shield. Clarification to response: It was taken that this question was in reference to the snow guards specified in Specification Section 08 63 00. Provide the Manufacturers standard specifications for the ice shield (snow guard) being proposed. Refer also to clarification to specification below.

2. RFI #11: 08 6300 1.4 requires annual inspections. Does this cost need to be included in the bid, and if so, for how many years? Clarification to response: Yes, this specification has been revised. Include annual inspections during the 2 year installer's warranty period now specified in Paragraph 1.8.A.

Specifications

1. Specification 08 63 00 Structural Translucent Insulated Roofing System. Clarification: Snow guards referred to in Paragraphs 2.2.D. and 3.3.C refer to appurtenances attached to the insulated panel support framing that aid in preventing large sheets of melting ice and snow from sliding off the translucent roof system causing potential damage to the low roof or surrounding areas. Manufacturer to provide snow guards similar to what is currently located on the west side of the existing translucent roof above the maintenance yard (refer to sheet A2.2 for plan), but install them around the entire perimeter of the high translucent roof.

End of Addendum No. 2
