#### **Independent Auditor's Report**

To the Board of Trustees Metropolitan Tulsa Transit Authority Tulsa, Oklahoma

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Metropolitan Tulsa Transit Authority (the Authority), a discretely presented component unit of the City of Tulsa, Oklahoma, as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Authority as of June 30, 2014 and 2013, and the respective changes in its financial position and cash flows, for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 8, and the schedule of funding progress on page 23 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of expenditures of federal awards, schedule of operating expenses, excluding depreciation and schedule of project costs, listed in the table of contents as supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditures of federal awards, schedule of operating expenses, excluding depreciation and schedule of project costs, listed in the table of contents as supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards, schedule of operating expenses, excluding depreciation and schedule of project costs are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our reports for the years ended June 30, 2014 and 2013 dated October 28, 2014 and November 14, 2013, respectively, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of those reports are to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. Those reports are an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Kansas City, Missouri October 28, 2014

McGladrey LCP

#### Management's Discussion and Analysis Year Ended June 30, 2014

As management of the Metropolitan Tulsa Transit Authority (the Authority), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal years ended June 30, 2014 and 2013. The Authority is a component unit of the City of Tulsa, Oklahoma. We encourage readers to consider the information presented here in conjunction with the Authority's financial statements, which begin on page 8. All amounts are expressed in thousands of dollars.

#### **Financial Highlights**

- The assets of the Authority exceeded its liabilities at the close of the most recent fiscal year by approximately \$24,813 (net position). For fiscal year 2013, assets exceeded liabilities by \$25,900.
- During fiscal year 2014, the Authority's total net position decreased by approximately \$1,087. For fiscal year 2013, the Authority's total net position increased by \$320.
- The Authority's total liabilities increased by approximately \$398 during fiscal year 2014.
- For the year ended June 30, 2014, net capital assets decreased by approximately \$1,047. For the year ended June 30, 2013, net capital assets decreased by approximately \$22.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements include: 1) statement of net position, 2) statement of revenues, expenses and changes in net position, 3) statement of cash flows and 4) notes to basic financial statements. This report also contains other supplementary information to demonstrate compliance with finance-related activities.

#### **Required Financial Statements**

The financial statements of the Authority report information using accounting methods similar to those used by private sector companies. These statements offer short- and long-term financial information about its activities. The statement of net position includes all of the Authority's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for assessing the liquidity and financial flexibility of the Authority. All of the current year's revenues and expenses are accounted for in the statement of revenues, expenses and changes in net position. This statement measures the financial success of the Authority's operations over the past year and can be used to determine whether the Authority has successfully recovered all of its costs through its user fees and other charges. The third required financial statement is the statement of cash flows. The primary purpose of this statement is to provide information about the Authority's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments and changes in cash resulting from operations, noncapital financing, investing and financing activities and provides answers to such questions as where did cash come from, what was cash used for and what was the change in cash balance during the period.

#### Management's Discussion and Analysis Year Ended June 30, 2014

#### **Net Position**

The Authority's net position decreased approximately \$1,087 for fiscal year ended June 30, 2014. The decrease is primarily due to depreciation of assets exceeding capital outlay. The Authority's net position increased approximately \$320 for the fiscal year ended June 30, 2013. The increase is primarily due to additional federal capital revenues.

Net Position (in thousands of dollars)

	 2014			2012		
Assets:						
Current and other assets	\$ 3,793	\$	3,435	\$	2,986	
Capital assets, net	24,707		25,754		25,776

Restricted for other purposes	1,027		747		592	
Unrestricted (deficit)	(921)		(601)		(788)	
Total net position	\$ 24,813	\$	25,900	\$	25,580	

#### **Change in Net Position**

For the year ended June 30, 2014, the Authority's total operating revenues increased approximately \$124 and operating expenses increased \$82. The key factor for the increase in operating revenues was attributable to a 5 percent increase in fixed route ridership. The increase in operating expenses was primarily driven by a year-end self-insurance accrual of \$125.

For the year ended June 30, 2013, the Authority's total operating revenues increased approximately \$61 and operating expenses increased \$704. The key factor for the increase in operating revenues was attributable to a 7 percent increase in fixed route ridership. With regard to operating expenses, Labor and Fringe increased 7 percent, which was due to fixed route service increases and year-end accruals for the Authority's Net Pension Obligation and Other Post Employment Benefits.

#### Management's Discussion and Analysis Year Ended June 30, 2014

## Changes in Net Position (in thousands of dollars)

	2014			2013	2012

Increase (decrease) in net position	\$	(1,087)	\$	320	\$	7,578	

#### **Capital Assets**

The Authority's investment in capital assets as of June 30, 2014 amounts to approximately \$24,707 (net of accumulated depreciation). This investment in capital assets includes revenue and service equipment, land, buildings and other equipment. Although the Authority made additional investments in capital assets, primarily passenger shelters and service equipment, investments trailed prior year resulting in a \$1,047 decrease in net assets.

## Net Capital Assets (in thousands of dollars)

#### Management's Discussion and Analysis Year Ended June 30, 2014

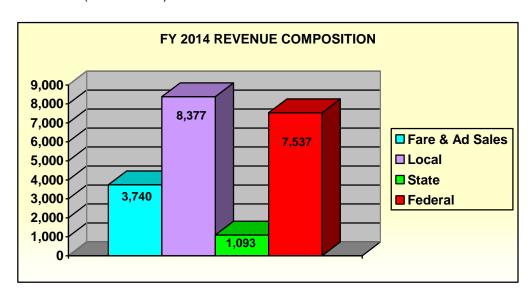

#### **Economic Factors:**

The Authority provides public transportation programs to residents in Tulsa, Broken Arrow, Jenks and Sand Springs. These services include fixed route bus service, ADA paratransit services for the disabled, commuter bus services, evening deviated fixed-route services, and special event service. To coordinate these services and provide information to the public, the Authority operates a customer call center, which processes nearly 746,000 inquiries annually. ADA paratransit services are provided by a 3<sup>rd</sup> party, MV Transportation, and are referred to as Lift Program services.

The 2015 total operating budget of \$18,094 is consistent with 2014; however, the City of Tulsa's annual apportionment to the Authority was decreased by 5 percent to \$7,448 from \$7,855 in 2014. To absorb this decrease, the Authority will be adjusting service and implementing a 17 percent fare increase for both fixed route and paratransit services. Although we have seen our ridership grow 24 percent in the last five years, with these changes, we are projecting a modest decrease in ridership for 2015.

With a few exceptions, the Authority is forecasting operating expenses to remain flat; however, recent decreases in lift ridership and a 6 percent price increase for electrical utilities will result in decreased purchased transportation expense and increased utilities expense for FY 2015. Both of these developments came after the 2015 budget process was completed. Other economic factors such as oil prices, natural gas prices, economic growth (or compression), and governmental funding can impact operational expense and revenues.

In addition to fare and advertising revenues, the Authority is subsidized by Local, Federal, and State revenues. An annual apportionment is provided by the City of Tulsa and by the State of Oklahoma Transit Revolving Fund. Federal subsidies are awarded through various Federal Transportation Administration (FTA) grant agreements. FTA grant agreements are the most restricted as they can only be used for a specific operating or capital purpose. Although FTA funds for operating purposes have not fluctuated a great deal from year to year, the FTA has restructured how funds for capital projects are now being awarded. Capital funds that were once discretionary are now formula driven with the end result being less capital funding to the Authority. To adjust for this development, the City of Tulsa approved a \$29.7 million Capital Improvement Plan that will fund a Bus Rapid Transit System and replenish fully depreciated rolling stock. Total revenues for 2014 were \$20,747. The following chart details the Authorities revenue composition for 2014 (in thousands):

#### Management's Discussion and Analysis Year Ended June 30, 2014

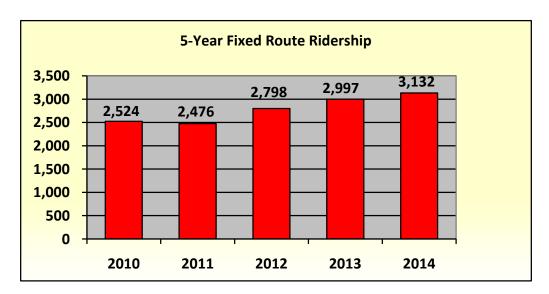

One of the biggest challenges the Authority faces is the recruiting, hiring, and retention of employees, especially in the area of Bus Drivers. For FY 2014, the turnover rate for bus drivers was 37 percent. The lack of experienced bus drivers is beginning to have an adverse impact on different phases of the Authority's operations. This is best demonstrated in the Authority's accident and on-time performance. The table below details 2014 accident and on-time performance results and other metrics the Authority utilizes to measure the efficiency, quality, and safety of the transit system.

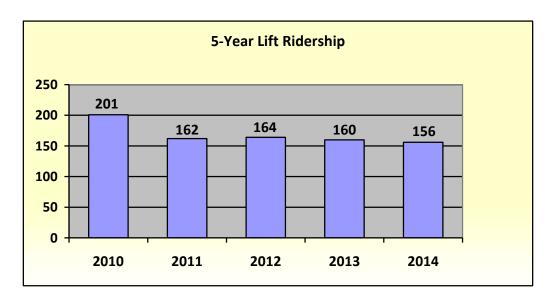

Goal 1. Operate a Safe Transit Syste	em									
Accidents (Per 100K Miles)	FY14	FY13	% Change	<b>Target</b>						
Fixed Route	2.47	1.01	145%	1.00	/					
Lift	2.51	2.38	5%	1.50	/					
Goal 2. Meet and Exceed Customer	Goal 2. Meet and Exceed Customer Expectations									
Complaints (Per 10K Boardings)	FY14	FY13	% Change	<u>Target</u>						
Fixed Route	3.32	2.67	24%	4.00	•					
Lift Program	18.19	21.79	-17%	23.00	•					
*On-Time Performance										
Fixed Route	91%	93%	-2%	95%						
Lift Program	94%	94%	0%	95%	/					
Goal 3. Maintain a Quality Workford	ce									
Absences (per Weekday)	FY14	FY13	% Change	<u>Target</u>						
Operators	5.00	6.00	-17%	10.00	•					
total	8.00	9.00	-11%	13.00	•					
Goal 4. Operate an Effective Transit	System									
Passengers Per Hour	FY14	FY13	%Change	<b>Target</b>						
Fixed Route	18.06	17.59	3%	17.00	•					
Lift Program	2.06	2.06	0%	2.00	•					
Goal 5. Operate and Efficient Trans	it Systen	n								
Cost Per Service Hours	FY14	FY13	%Change	<b>Target</b>						
Fixed Route	\$76.18	\$77.81	-2%	\$82.14	•					
Lift Program	\$53.93	\$4.42	0%	\$60.00	•					
Cost Per Trip										
Fixed Route	\$4.22	\$4.42	-5%	\$4.65	•					
Lift Program	\$26.15	\$26.13	0%	\$27.00	•					
* A bus is considered late if it is	Cor	sistent w	ith or better tl	nan target	•					
ten-minutes or more late.				han target	4					

The above metrics are monitored monthly, and if trends are identified, they may be adjusted during the course of the year. Because of the FY 2014 metrics and the changing dynamic of our workforce, our accident targets have been adjusted for FY 2015 with the fixed route target now being 1.5 accidents per 100K miles and the lift target being revised to 2.0 accidents per 100K miles. The on-time performance target of 95 percent is unchanged for FY 2015, as the Authority will continue to strive for the 95 percent target.

#### Management's Discussion and Analysis Year Ended June 30, 2014

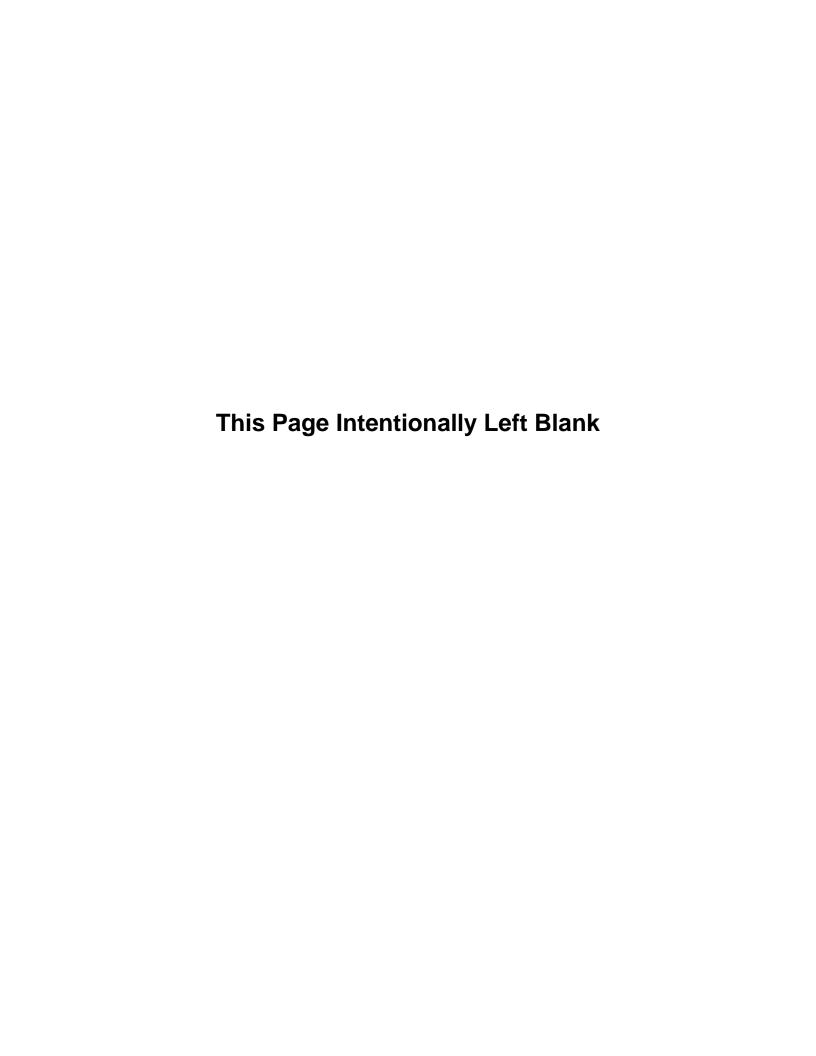

Fixed route ridership reached a new milestone for 2014 as ridership eclipsed three million riders. As mention previously, ridership has increased 24 percent over the last five years; thus, the demand for public transit is increasing. The Authority has not experienced this amount of ridership since FY 2001, and at that time, the Authority's bus fleet was 20 percent larger. To better illustrate the changes in the Authority's ridership, the following charts show both fixed route and lift ridership over a five-year period (in thousands):

#### **Request for Information**

This financial report is designed to provide a general overview of the Authority's finances for all of those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, Metropolitan Tulsa Transit Authority, 510 S. Rockford Avenue, Tulsa, Oklahoma 74120.

#### **Notes to Basic Financial Statements**

# Note 1. Nature of Business, Reporting Entity and Significant Accounting Policies Nature of business:

The Metropolitan Tulsa Transit Authority (the Authority) was created by a trust indenture to provide a means of financing and operating municipal public transportation services. The provisions of the trust provide that the Authority will acquire and operate the transportation services, receive all revenue generated from the transportation services, pay all operating expenses and finance future improvements.

#### Reporting entity:

The City of Tulsa, Oklahoma (the City) is the beneficiary of the trust operated by the Authority and upon termination of the trust, title to the assets of the Authority shall pass to the City. The Authority is a component unit of the City and is included in the City's Comprehensive Annual Financial Report as a discretely presented component unit.

#### Significant accounting policies:

Basis of accounting and presentation: The financial statements of the Authority have been prepared on the accrual basis of accounting using the economic resources measurement focus. Revenues, expenses, gains, losses, assets and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place. Government-mandated nonexchange transactions are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions. Government-mandated nonexchange transactions, interest income and other similar transactions are included in nonoperating revenues and expenses.

<u>Cash and cash equivalents</u>: The Authority considers all investments which have an original maturity of 90 days or less to be cash equivalents. The Authority defines cash and cash equivalents used in the statement of cash flows as all cash and liquid investments with original maturities of 90 days or less (both restricted and unrestricted).

<u>Restricted cash</u>: The Authority is required to maintain a capital match account for its local share of capital assets purchased with the Federal Transit Administration (FTA). Restricted cash also includes reserves to comply with the worker's compensation agreement.

<u>Inventories</u>: The parts and fuel inventories are stated at the lower of cost or market with cost being determined on an average cost basis.

<u>Capital assets</u>: Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$2,500, and an initial useful life of one year or greater. Capital assets are stated at cost. Depreciation of capital assets is computed using the straight-line method over the estimated useful life of each asset.

Revenue equipment 4 - 12 years
Service, shop, garage and other equipment 3 - 10 years
Furniture and fixtures 4- 10 years
Buildings and passenger shelters 10 - 30 years

#### **Notes to Basic Financial Statements**

#### Note 1. Nature of Business, Reporting Entity and Significant Accounting Policies (Continued)

Maintenance and repairs are charged against operations, while renewals and betterments are capitalized. When a capital asset is retired or otherwise disposed of, the cost and applicable accumulated depreciation are removed from the respective accounts and the resulting gain or loss is recorded in operations.

<u>Capital contributions and operating grants</u>: Capital contributions represent capital grants and other capital contributions for which all applicable eligibility requirements have been met by the Authority.

The Authority follows the provisions of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, which establishes accounting and financial reporting standards to guide state and local governments' decisions about when and how to report the results of nonexchange transactions involving cash and other financial and capital resources.

It is the policy of the City to support the Authority's operations at a level which permits the Authority to operate on a break-even basis, exclusive of depreciation and capital transactions.

Compensated absences: Authority policies permit most employees to accumulate vacation and sick leave benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability are recognized as vacation benefits are earned whether the employee is expected to realize the benefit as time off or in cash. Expense and the related liability for sick leave benefits are recognized when earned to the extent the employee is expected to realize the benefit in cash and is determined using the termination payment method. Sick leave benefits expected to be realized as paid time off are recognized as expense when the time off occurs and no liability is accrued for such benefits employees have earned but not yet realized. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the balance sheet date plus an additional amount for compensation-related payments such as Social Security and Medicare taxes computed using rates in effect at that date.

	 2013		Additions	l	Deletions	2014	Due in One Year
Compensated absences	\$ 670,244	\$	675,393	\$	670,244	\$ 675,393	\$ 77,670
	 2012	,	Additions	ļ	Deletions	2013	Due in One Year
Compensated absences	\$ 687,536	\$	670,244	\$	687,536	\$ 670,244	\$ 77,499

Net position: Net position of the Authority represents the difference between assets and liabilities. Investment in capital assets consist of capital assets net of accumulated depreciation. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors or, laws or regulations of other governments. When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the Authority first applies restricted resources. Unrestricted net position (deficit) is the remaining assets less the remaining liabilities that do not meet the definition of net investment in capital assets or restricted.

<u>Income taxes</u>: The Authority, as a political subdivision of the City, is excluded from federal income taxes under Section 115(1) of the internal Revenue Code, as amended.

#### **Notes to Basic Financial Statements**

#### Note 1. Nature of Business, Reporting Entity and Significant Accounting Policies (Continued)

Risk management: The Authority is exposed to various risks of loss from torts; theft of damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental and accident benefits. Commercial insurance coverage is purchased in conjunction with the City for claims arising from such matters other than bodily injury, property damage and workers' compensation. For bodily injury and property damage, losses are limited by the Oklahoma Tort Claims Act. The act limits liability to \$125,000 per claimant bodily injuries and \$25,000 per claimant property damage with a maximum loss per occurrence of \$1,000,000. For workers' compensation, losses incurred for the first \$350,000 per claim and any excess over \$5,000,000 per claim are retained by the Authority. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The Authority is self-insured for a portion of its exposure to risk of loss from bodily injury, property damages and workers' compensation. Annual estimated provisions are accrued for the self-insured portion of bodily injury, property damage and workers' compensation claims and includes an estimate of the ultimate costs for both reported claims and claims incurred but not yet reported.

<u>Use of estimates</u>: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and other changes in net position during the reporting period. Actual results could differ from those estimates.

<u>Reclassifications</u>: Certain comparative balances for the year ended June 30, 2013 have been reclassified to make them consistent with the current year presentation. The reclassifications had no effect on change in net position or ending net position for 2013.

#### Note 2. Deposits and Investments

<u>Deposits</u>: As of June 30, 2014 and 2013, the Authority's cash equivalents consisted of checking accounts and interest bearing savings accounts. The Authority had no investments. Custodial credit risk is the risk that in the event of a bank failure a government's deposits may not be returned to it. The Authority's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the state of Oklahoma; bonds of any city, county, school district or special road district of the state of Oklahoma; bonds of any state; or a surety bond having an aggregate value at least equal to the amount of the deposits.

As of June 30, 2014 none of the Authority's bank balances of \$2,564,269 were uninsured and uncollateralized. As of June 30, 2013 one of the Authority's bank balances of \$1,889,337 was uninsured and uncollateralized due to the expiration of the Dodd-Frank Wall Street Reform and Consumer Protection Act during the fiscal year.

#### **Notes to Basic Financial Statements**

#### Note 4. Pension Plans

Each qualified Authority employee is included in one of two pension plans depending on their status as union or salaried personnel. Each plan is administered by a separate board of trustees and the assets are held in custody by certain banks.

A summary of significant data for each of the pension plans follows:

<u>Municipal Employees' Pension Plan</u>: The Authority contributes to the Municipal Employees' Pension System (the Plan), a cost sharing multiple-employer defined benefit pension plan administered by the City of Tulsa, Oklahoma. The Plan was established by the City in accordance with the City Charter and state statutes and is reported in the City's Municipal Pension Trust Fund. Nonuniform, nonelected full-time employees of the Authority along with other employees of the City and certain related agencies participate in this plan immediately upon employment. Employees become 100 percent vested after five years of employment.

Pension provisions include death benefits for the surviving spouse. The Plan does not provide a monthly income for disabled participants; however, under certain conditions, employees who become disabled may be eligible to receive their full retirement at age 65 even though they were unable to work up to the retirement age.

The Authority to establish and amend requirements of plan members and the Plan is set forth in the City Charter and state statutes and is vested in the Plan's board of trustees, which are appointed by the mayor with approval of the City Council. Plan members are required to contribute 5.0 percent of their annual covered salary. The Authority is required to contribute at an actuarially determined rate; the rate was 11 percent, 11 percent and 9.3 percent for the years ended 2014, 2013 and 2012, respectively. The Authority's contributions to the Plan for fiscal years 2014, 2013 and 2012 were approximately \$195,000, \$237,000 and \$139,000, respectively, which equaled its required portion of the contributions for each year.

The Plan is reported as a Municipal Pension Trust Fund in the City's 2014 Comprehensive Annual Financial Report. The Plan does not issue a stand-alone, financial report and is not included in the report of a public employee retirement system.

There are no investments in any one organization representing 5 percent or more of the Plan's net position. There are no investments in loans to or leases with related parties to the Plan.

	2013	ı	Additions	ļ	Deletions	2014	oue in ne Year

#### **Notes to Basic Financial Statements**

#### Note 4. Pension Plans (Continued)

<u>Union Employees' Pension Plan</u>: The Authority has a pension plan (the Union Plan) covering substantially all of its union employees, which is a single-employer defined benefit pension plan. The Union Plan provides retirement, disability, death and termination benefits to plan members and beneficiaries. The Authority and Local 892 of the Amalgamated Transit Union (the Union) are parties to the Metropolitan Tulsa Transit Authority Union Employees' Pension Plan Agreement (the Agreement) dated July 1, 1975, as amended, and have the authority to establish and amend benefit provisions through renegotiation of the Agreement. The employer and employee contribution rates are determined by the Agreement. The employee contribution rate for fiscal years 2014 and 2013 was 4 percent. The employer contribution rate for fiscal years 2014 and 2013 was 9 percent.

The Union Plan does not issue a stand-alone financial report and is not included in the report of a public employee retirement system or a report of another entity.

All full-time employees represented by the Union who have both completed one year of employment and attained age 21 are eligible to participate in the Union Plan. Participants become 100 percent vested after ten years of service.

The annual required contribution for the current year was determined as part of the July 1, 2014, actuarial valuation using the entry age normal cost method. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial liability is being amortized as a level percent of payroll over an open amortization period, which is currently 30 years.

Union Plan assets consist of fixed income funds, equity securities and short-term investments whose value is determined using market values. There are no investments in any organization representing 5 percent or more of the plan net position. There are no investments in loans to or leases with related parties to the Union Plan. Actuarial valuation assumptions include the use of a 7.5 percent discount rate and a projected salary increase of 3.00 percent per year to retirement age.

	2014	2013
Annual required contribution (ARC)	\$ 417,630	\$ 408,337
Interest on net pension obligation	28,684	19,027
Adjustment to ARC	(22,151)	2,984
Annual pension cost	424,163	430,348
Contributions made	285,450	283,904
Increase in net pension obligation	138,713	146,444
Net pension obligation, July 1, 2013	382,478	236,034
Net pension obligation, June 30, 2014	\$ 521,191	\$ 382,478

#### **Notes to Basic Financial Statements**

#### Note 4. Pension Plans (Continued)

The Authority's annual pension cost and net pension obligation is as follows:

Fiscal Year	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2014 2013	\$ 424,163 430,348	67% : 89	* \$ 521,191 * 382,478
2013	329,076		* 236,034

<sup>\*</sup> A portion of this amount was contributed with interest subsequent to June 30.

Funded status and funding progress as of June 30, 2014: As of July 1, 2014, the most recent actuarial valuation date, the Union Plan was 80.8 percent funded. The actuarial value of assets was \$9,808,091 and the actuarial accrued liability was \$12,132,819 resulting in a total unfunded actuarial liability of \$2,324,728. The annual covered payroll (annual payroll of active employees covered by the plan) was \$3,174,496 and the ratio of the unfunded actuarial liability to annual covered payroll was 73.2 percent.

Funded status and funding progress as of June 30, 2013: As of July 1, 2013, the Union Plan was 80.6 percent funded. The actuarial value of assets was \$9,121,142 and the actuarial accrued liability was \$11,325,407 resulting in a total unfunded actuarial liability of \$2,204,265. The annual covered payroll (annual payroll of active employees covered by the plan) was \$3,171,667 and the ratio of the unfunded actuarial liability to annual covered payroll was 69.5 percent.

The required schedule of funding progress presented immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

#### Note 5. Other Postemployment Benefits (OPEB)

The City provides postemployment health care benefits for retired employees and their dependents through the City of Tulsa Postretirement Medical Plan (the Plan), a multiple-employer cost sharing defined benefit health care plan. The benefits, coverage levels, employee contributions and employer contributions are governed by the City through its personnel and union contracts.

All health care benefits are provided through the City's fully insured health plan. The benefit levels are the same as those offered to active employees. Benefits include general inpatient and outpatient medical services and prescriptions. General employees are eligible for membership in the plan if they retire from the City on or after age 55 with 5 years of service or with age and service totaling 80 points. Coverage ceases upon eligibility of the member (retiree or dependent) for Medicare. Coverage for dependents can continue upon the death of the retiree. Spouses of employees eligible for benefits and who die in active service can receive coverage.

#### **Notes to Basic Financial Statements**

#### Note 5. Other Postemployment Benefits (OPEB) (Continued)

The actuarial valuation of liabilities under the plan is calculated using the entry age normal cost method as of the July 1, 2012 and 2011 actuarial valuations. This method requires the calculation of an unfunded actuarially accrued liability, which was approximately \$14,216,000 and \$28,539,000 for the City as of June 30, 2014 and 2013, respectively. The Authority's portion of the unfunded actuarially accrued liability is not separately determinable.

The City's actuarially determined annual required contributions (ARC) for fiscal years ended June 30, 2014 and 2013 were \$1,376,000 and \$2,880,000, respectively, of which \$1,332,000 and \$1,685,000 were paid on a pay-as-you-go basis in 2014 and 2013, respectively. The Authority was allocated \$382,062 and \$386,431 of the net OPEB obligation for the fiscal years ended June 30, 2014 and 2013, respectively, which has been reflected in the financial statements. The amount allocated to the Authority is based on the covered employees compared to the total covered employees for the Plan of the active eligible employees. The complete details of the plan are disclosed in the City's Comprehensive Annual Financial Report.

#### Note 6. Commitments and Contingencies

In the normal course of operations, the Authority receives grant funds from federal agencies. The grant programs are subject to audit by agents of the granting agency, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

The Authority is party to other legal proceedings which arise in the normal course of operations. Any liability resulting from these proceedings is not believed by management to have a material effect on the financial statements.

As of June 30, 2014, the Authority has entered into contracts totaling approximately \$3,379,800 which will be funded primarily by federal grants, as well as local capital contributions.

#### Note 7. Related-Party Transactions

During the years ended June 30, 2014 and 2013, the Authority received no advances from the City, although \$326,000 of prior advances were outstanding as of June 30, 2014 and 2013.

During the years ended June 30, 2014 and 2013, the Authority received operating appropriations from the City of \$7,580,000 and \$7,892,000, respectively. During the years ended June 30, 2014 and 2013, the Authority received capital appropriations from the City of \$797,359 and \$635,236, respectively.

#### Note 8. Self-Insurance Liability

The Authority is self-insuring its liability for bodily injury and property damage losses incurred. Losses are limited by the Oklahoma Tort Claims Act. The act limits liability to \$125,000 per claimant bodily injuries and \$25,000 per claimant property damage with a maximum loss per occurrence of \$1,000,000. The Authority is also self-insuring its liability for workers' compensation losses incurred for the first \$350,000 per claim and any excess over \$5,000,000 per claim. Losses estimated to have been incurred and not paid as of the statement of net position date are accrued as a liability. These loss estimates are determined using the history of claims activity from prior years to predict losses which have been incurred but not reported to the Authority.

#### **Notes to Basic Financial Statements**

#### Note 8. Self-Insurance Liability (Continued)

The following is a summary of the self-insurance activity during the fiscal years ended June 30, 2014, 2013 and 2012:

	2014		2013	2012	
Liability, beginning of year	\$ 448,499	\$	401,752	\$	344,266
Claims incurred: Auto/general	36,007		51,860		52,343
Workers' compensation	217,824		92,015		39,038
Claims paid	 (250,607)		(97,128)		(33,895)
Liability, end of year	\$ 451,723	\$	448,499	\$	401,752

The accrued insurance claims liability as of June 30, 2014 and 2013, also includes a workers' compensation bonus accrual of \$22,800 and none, respectively, for union employees without any worker's compensation claims during the year.

#### Note 9. Line of Credit

The Authority had a revolving line of credit with F&M Bank in the amount of \$650,000 which expired May 15, 2014. As of June 30, 2014 and 2013, there was \$0 and \$39,244 borrowed and outstanding against the line of credit. The line of credit had a variable interest rate equal to the commercial prime interest rate, which was 4 percent as of the expiration of the line and June 30, 2013.

#### Note 10. Future Changes in Accounting Pronouncements

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, issued June 2012, will be effective for the Authority beginning with its year ending June 30, 2015. This Statement replaces the requirements of GASB Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, and GASB Statement No. 50, Pension Disclosures, as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that met certain criteria. This Statement requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively comparably measure the annual costs of pension costs. This Statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information.

GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date- an amendment of GASB Statement No. 68, issued in November 2013 will be effective for the Authority beginning with its year ending June 30, 2015. This Statement eliminates a potential source of understatement of restated beginning net position and expense in a government's first year of implementing GASB Statement No. 68, Accounting and Financial Reporting for Pensions. To correct this potential understatement, Statement 71 requires a state or local government, when transitioning to the new pension standards, to recognize a beginning deferred outflow of resources for its pension contributions made during the time between the measurement date of the beginning net position liability and the beginning of the initial fiscal year of implementation. This amount recognized will be regardless of whether its practical to determine the beginning amounts of all other deferred outflows of resources and deferred inflows of resources related to pensions.
