WHEREAS, Seller desires to provide such Goods and/or Services to City, acknowledges that this document constitutes Seller's offer to provide the Goods and/or Services specified below, and further acknowledges that if executed by the City's Mayor, this document will become the Purchase Agreement for such Goods and/or Services.

NOW, THEREFORE, for and in consideration of the terms, covenants and conditions hereinafter set forth, the parties hereto agree as follows:

- Documents Comprising the Agreement.** The Bid Packet includes the Notice of Invitation to Bid, the Summary Sheet, Form #1, Form #2, Form #3, Form #4, Form #5, Form #6, the Instructions, Terms and Conditions for Bidders, the Special Requirements, the Technical Specifications, Exhibit A and any addenda or amendments to the Bid Packet. Seller may submit as part of its Bid additional materials or information to support the Bid. Additional materials or information submitted by Seller which are not ambiguous and which do not conflict with this Purchase Agreement or the other Bid Packet documents are incorporated herein by this reference.
- Purchase and Sale.** Seller agrees to sell City the Goods and/or Services for the price and upon the delivery terms set forth in Exhibit A hereto. City agrees to pay Seller the price as set forth in Exhibit A based on (a) the quantity actually purchased in the case of goods or services priced by unit, or (b) the total price for a stated quantity of goods or services, upon (i) delivery of the Goods and/or Services to the City, (ii) the City's Acceptance thereof, and (iii) Seller's submission and City's approval of a verified claim for the amount due. City shall not pay any late charges or fees.
- Irrevocable Offer.** Seller understands and acknowledges that its signature on this Agreement constitutes an irrevocable offer to provide the Goods and/or Services. - Term.** The term of this Agreement shall be effective commencing on the date of execution of this Agreement by the Mayor/Mayor Pro Tem of the City of Tulsa and terminating one year from that date. City in its sole discretion may offer Seller an opportunity to renew this Agreement for an additional four (4) one (1) year term(s). Seller understands and acknowledges that any future contracts or renewals are neither automatic nor implied by this Agreement. The continuing purchase by City of the Goods and/or Services set forth in this Agreement is subject to City's needs and to City's annual appropriation of sufficient funds in City's fiscal year (July 1st to June 30th) in which such Goods and/or Services are purchased. - 8. **No Indemnification by City.** Seller understands and acknowledges that City is a municipal corporation that is funded by its taxpayers to operate for the benefit of its citizens. Accordingly, and pursuant to Oklahoma law, City shall not indemnify nor hold Seller harmless for loss, damage, expense or liability arising from or related to this Agreement, including any attorneys' fees and costs. In addition, Seller shall not limit its liability to City for actual loss or direct damages for any claim based on a material breach of this Agreement and the documents incorporated herein. City reserves the right to pursue all legal and equitable remedies to which it may be entitled.
- 9. **Indemnification by Seller.** Seller agrees to indemnify, defend, and save harmless City and its officers, employees and agents from all suits and actions of any nature brought against them due to the use of patented appliances, products or processes provided by Seller hereunder. Seller shall pay all royalties and charges incident to such patents.
- 10. **No Insurance by City.** If City is leasing Goods herein, City shall not be required to obtain insurance for Seller's property. Seller shall be solely responsible for any insurance it deems necessary. City is self-insured for its own negligence, subject to the limits of the Governmental Tort Claims Act (51 O.S. § 151 et seq.).
- 11. **No Confidentiality.** Seller understands and acknowledges that City is subject to the Oklahoma Open Records Act (51 O.S. §24A.1 et seq.) and therefore cannot assure the confidentiality of contract terms or other information provided by Seller pursuant to this Agreement that would be inconsistent with City's compliance with its statutory requirements thereunder.

Furthermore, if City accepts Seller's Bid and awards a contract to Seller based on such Bid, City shall not be bound to any exceptions, changes or additions made by Seller, and any terms and conditions added by Seller which are not expressly agreed to by City in writing will be void and of no force and effect and the parties will be governed according to the document precedence set forth in Section 1 above.
- 13. **Compliance with Laws.** Seller shall be responsible for complying with all applicable federal, state and local laws, regulations and standards. Seller is responsible for any costs of such compliance. Seller certifies that it and all of its subcontractors to be used in the performance of this Purchase Agreement are in compliance with 25 O.S. Sec. 1312 and includes but is not limited to the free Employee Verification Program (E-Verify) available at www.dhs.gov/E-Verify.
- 14. **Termination.** City, by written notice, may terminate this Agreement, in whole or in part, when such action is in the best interest of City. If this Agreement is so terminated, City shall be liable only for payment for Goods accepted and Services rendered prior to the effective date of termination. City's right to terminate this Agreement is cumulative to any other rights and remedies provided by law or by this Agreement.
- 15. **Price Changes.** The parties understand and agree that the variables in Seller's cost of performance may fluctuate, but any change in Seller's cost of performance will not alter its obligations under this Agreement, nor excuse performance or delay on Seller's part. If the IFB provides that Seller may include a price escalation provision in its Bid, Seller's price escalation provision will be evaluated by City as part of Seller's Bid price when awarding the Bid.
- 16. **Right to Audit.** The parties agree that Seller's books, records, documents, accounting procedures, practices, price lists or any other items related to the Goods and/or Services provided hereunder are subject to inspection, examination, and copying by City or its designees. Seller is required to retain all records related to this Agreement for the duration of the term of this Agreement and a period of three years following completion and/or termination of the Agreement. If an audit, litigation or other action involving such records begins before the end of the three year period, the records shall be maintained for three years after the date that all issues arising out of the action are resolved or until the end of the three year retention period, whichever is later.
- 17. **Notice.** Any notice, demand, or request required by or made pursuant to this Agreement shall be deemed properly made if personally delivered in writing or deposited in the United States mail, postage prepaid, to the addresses specified below.

MATERIAL SPECIFICATIONS

DESCRIPTION OF SODIUM HYPOCHLORITE:

Sodium Hypochlorite solution (NaOC1) is a clear light-yellow liquid containing up to 160 g/L available chlorine (15 trade percent). One method of manufacturer is by passing chlorine into a caustic soda solution or into a caustic soda-soda ash mix. Available chlorine is a term used to express the oxidizing power of the chlorine. It can be expressed in one of three ways. The basic formulas are:

$$\text{Volume or trade, percent} = \frac{\text{Grams available chlorine per liter}}{10} \quad \text{Eq 1}$$

$$\text{Percent available chlorine/weight} = \frac{\text{Trade percent}}{\text{specific gravity of solution}} \quad \text{Eq 2}$$

$$\text{Percent available chlorine by weight} = 10x \frac{\text{grams per liter}}{\text{specific gravity of solution}} \quad \text{Eq 3}$$

PHYSICAL REQUIREMENTS:

Sodium Hypochlorite solution shall be a clear liquid containing not more than 0.15 percent insoluble matter by weight.

CHEMICAL REQUIREMENTS:

Sodium hypochlorite shall contain not less than 100 g/L available chlorine (10 trade percent; see 2.1) The total free alkali (as NaOH) in sodium hypochlorite shall not exceed 1.5 percent by weight.

Sodium Hypochlorite

Page 20 of 24

IMPURITIES:

Sodium Hypochlorite supplied under this specification shall contain no soluble material or organic substances in quantities capable of producing deleterious or injurious effects on the health of those consuming water that has been treated properly with sodium hypochlorite.

SAMPLING, TESTING, AND INSPECTION METHOD

SAMPLING:

A sample shall be collected from each truckload before unloading by the Seller. The sample will be tested by the City of Tulsa using a hydrometer, specific for 12.5% sodium hypochlorite, in order to determine the specific gravity. The sodium hypochlorite must meet the requirement of this specification in order for unloading to occur. The specific gravity, City of Tulsa and Seller signatures will be documented on the delivery confirmation form.

Three (3) 1-pint (0.47 L) samples shall be collected from each truck load. These shall be sealed in airtight, moisture-proof glass or plastic containers. Each sample container shall be labeled to identify it, and the label shall be dated and signed by the sampler.

SAMPLE HANDLING:

The moisture-proof glass or plastic sample bottle shall be stored in a dark, cool, dry place and kept perfectly sealed after the sample is withdrawn. The laboratory examination of the sample shall be completed within five working days after receipt of the shipment. Samples shall be stored for at least 30 days from the date of receipt of a shipment before disposing of them.

TESTING FOR AVAILABLE CHLORINE IN SODIUM HYPOCHLORITE:

Reagents:

1. Crystalline potassium iodide (iodate free)
2. 10.1N sodium thiosulfate
3. Glacial acetic acid
4. Starch indicator solution

PROCEDURE:

Measure accurately 20 mL of the sample, transfer it to a 1-L volumetric flask, and make up to volume with distilled water. Measure 25 mL of the solution from the 1-L flask into a 250-mL Erlenmeyer Flask, add approximately 1 g of crystalline potassium iodide, and make acid with Approximately 4 mL of glacial acetic acid. Titrate* with 0.1N sodium thiosulfate until the yellow color of the iodine is nearly destroyed. Add about 1 mL of soluble starch solution and continue to titrate until the blue (blackish-blue) color disappears entirely.

Calculations:

When volumes of sample and aliquot, as given in 3.2.2, are used:

$$\begin{array}{l} \text{Sodium thiosulfate} \\ \text{In milliliters, x normality x} \end{array} \quad \frac{40 \times 50 \times 0.03545}{10} = \text{volume, or trade percent}$$

or

$$\text{sodium thiosulfate, in milliliters x normality x 7.092 = volume, or trade percent}$$

TESTING FOR FRE ALKALI IN SODIUM HYPOCHLORITE:

Reagents:

1. 0.1N hypochloric acid.*
2. Hydrogen peroxide solution, 3 percent
3. Methyl orange indicator

**Invitation For Bid TAC 118H
Sodium Hypochlorite
Water & Sewer
Issued: November 18, 2021**

**City of Tulsa,
Oklahoma**
Page 21 of 24

Procedure:

Weigh accurately 10 g of sodium hypochlorite into a tall-form, 200 mL, heat-resistant glass beaker and add hydrogen peroxide until the action ceases. Record the exact amount of H₂O₂ addition. Boil for 2 min. and then cool. Titrate with 0.1N hydrochloric acid, using methyl orange as an indicator. Measure the same amount of hydrogen peroxide solution into a beaker as was added to the sample in step below. Next, titrate with 0.1N hydrochloric acid using methyl orange indicator. Subtract this amount from the titration method in below:

CALCULATION:

$$\frac{\text{Net mL HCl} \times \text{normality} \times 0.04 \times 100}{10 \text{ grams (weight of sample)}} = \text{net mL HCl} \times \text{normality} \times 0.4 \quad \text{Eq 4}$$

= percentage free alkali,
as NaOH

TESTING FOR INSOLUBLE MATTER IN SODIUM HYPOCHLORITE:

PROCEDURE:

Pour approximately 100 mL of the sodium hypochlorite solution into a tared 400 mL beaker placed on a laboratory platform balance, and weigh to the nearest 0.1 g. Add 100 mL of distilled water and mix thoroughly. Filter through a tared Gooch crucible. Wash the beaker and crucible with distilled water. Dry the crucible to a constant weight at 212-221 degrees F (100-105 degrees C).

CALCULATION:

$$\frac{\text{Grams of residue}}{\text{Grams of sample}} \times 100 = \text{percent insoluble matter} \quad \text{Eq 5}$$

*Moist samples of hypochlorite partly decomposed on storage and result in the formation of chlorite. In acetic acid medium, C102 reacts with I very slowly to release iodine. Therefore, if chlorite is present in the sample, a sharp end point in iodometric titration may not be attained.
