UTILITY RATES GO UP
NOVEMBER BILLS SHOW INCREASE

Since utility rates went up in October, the typical residential bill received in November is expected to increase by about $7 per month. Although water rates have stayed the same, sewer rates have increased by about $3.13 per month, and stormwater rates have increased by $0.77 per month. Trash rates have increased by about $3.08 per month. Here are some reasons for these increases:

- **INFLATION** – Water treatment chemical costs have increased by 40%; energy prices have increased by 20%, and equipment maintenance has increased 12% over last year. These costs are unavoidably passed on to utility rate payers.

- **SUPPLY CHAIN** – The City of Tulsa has purchases for equipment, vehicles, materials and supplies that have been on hold waiting delivery, and while they wait, inflation and costs continue to increase.

- **CONTRACTS** – Some contractors, vendors and suppliers have not been able to honor existing contracts due to inflation or supply chain issues. This requires rebidding contracts resulting in a higher cost. The Tulsa Authority for Recovery of Energy (TARE) is entering into new contracts for disposal of waste and collection of trash and recycling.

HOW TO WORK ON LOWERING YOUR BILL:

- Eliminate recycling contamination. One contaminated cart can prevent a whole truckload from going to the recycling plant, reducing revenue that the City of Tulsa would otherwise receive. When recycling revenues decrease, the next recycling contract price may increase, which passes on to customers.

- Reduce your water consumption, lowering the water usage portion of your bill.

If you have questions about specific charges on your bill, you can contact the Customer Care Center by calling 311, (918) 596-2100, or sending an email to tulsa311@cityoftulsa.org.

DISPOSAL OF LEAVES
MULCHING, COMPOST ARE GOOD OPTIONS

Each year in the fall, many Tulsans are busy with yard work to prepare for the upcoming winter. When the grass mowing stops, lawn maintenance shifts to managing leaves falling from the trees. Whether raking leaves or choosing another leaf disposal option, it is important to remember that yard waste should not be swept, blown or deposited in stormwater drains or waterways.

Leaves and grass clippings also should not be blown into the street, sidewalk, or ditch, where rainwater can carry them into storm sewers and streams. Yard waste can block storm drains and cause flooding; also as yard waste decomposes, it reduces the amount of oxygen in the water. Fish need oxygen to survive. Storm sewers in the city of Tulsa drain either to the Arkansas River or Bird Creek.

Here are other options for handling leaves and grass:

- Mulch them with a lawn mower and leave on the yard, or add them to a compost pile. Choosing these options helps return nutrients to the soil.

- Bag them and set out for pickup with your regular trash. See www.cityoftulsa.org/GW.

- Take them to the City’s mulch site at 2100 N. 145th East Ave.
SALES TAX OVERVIEW COMMITTEE (STOC) SUMMARY STATUS REPORT ON PROGRAMS MONITORED BY THE STOC

As of the close of City’s Fiscal Year 2021-2022 (June 30, 2022)

Prepared by the City of Tulsa Finance Department
Approved by the Committee September 2022

SALES TAX PROGRAMS

2008 Sales Tax Program (Fix Our Streets): In November 2008, voters authorized a temporary increase in the sales tax levy of one and two-twelfths percent (1.167%); to remain effective until June 30, 2014, with the expectation of collecting $166.6 million to be used for the repair, construction, and reconstruction of streets, bridges, and related infrastructure.

2017 Sales Tax & Advance Revenue Bond Program (Tulsa Vision Economic Development): In April 2016, voters authorized a temporary sales tax levy of a little over 3/10ths of a cent for funding economic development projects within the City of Tulsa. The temporary tax will be in place for 15 years. The sales tax went into effect on Jan. 1, 2017 and will end on Dec. 31, 2031. The tax will fund over $510.6 million in major capital projects across the City.

SUMMARY: The STOC is pleased to report to the citizens of Tulsa that voted projects have either been completed as promised, are in the process of being completed, or are awaiting the availability of funds prior to beginning the project. In a few cases, the voted project has been eliminated or materially changed. The Committee is satisfied that the changes were prompted by valid engineering, budgetary or regulatory reasons not known when the project was presented to the electorate and, in each such case, those monies were appropriated to a similar project. All such changes have been approved by the Mayor and/or City Council as required by the relevant ordinances.
