QUESTIONS/CLARIFICATION/CHANGES:

QUESTIONS:

1. Is the City expecting to see wet signatures on all required forms, or will e-signatures suffice?
E signatures will suffice.
2. The non-collusion form requires notarization. Will the City accept a scanned copy of the signed and notarized form or is the original copy mandatory?
The City will accept a scanned and signed and notarized form.
3. Pages 21 and 22 include general terms and conditions. Would the City be amenable to any redlines/exceptions to these?
There is some leeway on the terms & conditions but only very minimal changes are normally considered. Redlining an item can deem your submission nonresponsive. It is better to ask a specific question concerning a change to a term rather than a general question as you asked.
1. How many kiosks are in scope by quantity? Number of Indoor units, Outdoor units, Through-wall units? **We expect to start out with one indoor Kiosk situated at City Hall before expanding to at least one more indoor kiosk located in retail location(s) within 3 months. Demand would dictate the number of kiosks that will be deployed.**
2. Does the City of Tulsa have a preference on the procurement of the kiosks? Purchasing or Leasing? Would you like a purchase and lease pricing model? **We are looking to purchase the kiosk at this time.**
3. How many monthly or annual cashier payments are credit, debit and check transactions? Can you breakdown the transaction volume for each payment type?
These numbers are not readily available at this time.

4. Will credit card processing fees be absorbed or do you plan to charge customers a convenience fee? If a convenience fee is charged, what are the fees associated with each bill type? *Processing fees will be absorbed by the City.*
5. What are the average bill amounts collected for each bill type? What is the average bill amounts collected for each commercial account? *Average bill amounts by bill type are as follows:*
- *Municipal Court: \$150.00*
 - *Permits: \$300.00*
 - *Residential Utility Bill: \$115.00*
 - *General Billing: Range varies greatly depending on the type of billing.*
6. Will you require change making for cash or will you round up the customer's account balance? *We do not round customer balances.*
7. Do you intend to use an Armory for cash pickup or will the City manage the cash collection and close out? *We expect to use an armory to service Kiosks situated outside City Hall.*
8. We understand that Paymentus is the Payment Processor but could you please elaborate on all backend Software that the Kiosks would need to connect with as well?
- Financial Management and General Billing: Tyler Enterprise ERP, powered by Munis*
Utilities: Tyler Enterprise ERP, powered by Munis
Permitting and Licensing: Tyler Enterprise Permitting and Licensing, powered by EnerGov
Citations: Software vendor is being selected – Integration will only take place after the new system is deployed.
9. Can the City leverage its relationship with Tyler and any other Software Vendors so that the winning bidder will have cooperation from these Companies to open up their API's for the Kiosks? This is a requirement for the project to be successful for "Look Up's". *Yes.*
10. Do you wish for the Kiosks to take Bills only for Cash Payments (no Coin)? Do you have expectations that the Kiosks will dispense change back or round total up to nearest \$1 with no change back? *See above.*
11. How many Kiosks is the City looking for initially? How many Indoor Freestanding? *See above.*
12. How will cash be pulled from the Kiosk? Via Tulsa City Employee's or an Armored Car Service? *See above.*
13. When does the City wish to have the Kiosks operational for the public to use? *We will look for responses from the respondent.*

I. OVERVIEW AND GOALS:

With this Request for Proposal (RFP), the City of Tulsa is searching to secure a Respondent to provide self-service payment kiosks to allow citizens secure and convenient options to pay various City invoices and bills.

We enthusiastically look forward to receiving Your proposal.

II. BACKGROUND:

The City's Finance department has determined that it needs to expand options provided to citizens who choose to pay bills in person. These citizens are currently restricted to limited hours and locations to make payments. The City is interested in exploring the features, functions, and pricing of installing payment kiosks to extend more convenient means to pay multiple bills securely at easily accessible locations.

Listed below are the number and dollar amount of cash, check and credit card transactions processed in FYE June 30, 2023, by cashiers at City Hall and the Municipal Court:

- 40,000 utility billing transactions worth \$14.1M
- 30,000 permitting and general billing payments of \$12.5M
- 48,000 citations and miscellaneous bill payments of \$9.7M

The City is considering a phased approach to employing payment kiosks that offer indoor and outdoor 24/7 service to our customers. The City envisions branded kiosks that integrate initially with the utility billing system, followed by the financial system and eventually the municipal court software system. The City uses Tyler Technologies ERP solutions for its financial and utility billing needs. The City contracts with Paymentus for its payment processing solution.
