Additional Safety Tips

Swimming is a great recreational sport that can be enjoyed by people of all ages, but it's important to know how to be safe while you and others are in the water. The American Red Cross offers these important swimming safety tips to be aware of before heading out to the pool. For more information, visit [redcross.org](https://www.redcross.org).

- Swim in designated areas supervised by lifeguards.
- Always swim with a buddy; do not allow anyone to swim alone.
- Never leave a young child unattended near water and do not trust a child's life to another child; teach children to always ask permission to go near water.
- Have young children or inexperienced swimmers wear life jackets around water, but do not rely on life jackets alone.
- Maintain constant supervision.
- Make sure everyone in your family learns to swim well by enrolling yourself or others in age-appropriate swim lessons.
- Avoid distractions when supervising children around water.
- If a child is missing, check the water first. Seconds count in preventing death or disability.
- Have appropriate equipment, such as reaching or throwing equipment, a cell phone, life jackets and a first aid kit.
- Know how and when to call 9-1-1 or the local emergency number.
- Protect your skin. Limit the amount of direct sunlight you receive between 10 a.m. and 4 p.m. and wear sunscreen with a protection factor of at least 15 SPF.
- Drink plenty of water regularly, even if you're not thirsty. Avoid drinks with alcohol or caffeine in them.

Water Playgrounds and Splashpads

Water playgrounds and splash pads are one of our most popular park amenities in Tulsa Parks, offering both cool relief from the summer heat and fun ways for families and kids to engage.

Water can be turned on by residents at water playgrounds and splash pads between 9 a.m. and 6 p.m. daily starting Saturday, May 25, through Monday, September 2.

Water playgrounds and splash pads are similar park amenities. The difference is splash pads do not have the “playground” elements. Also, splash pads are primarily located in neighborhood parks with no restroom facilities or parking lots, so please plan accordingly and be considerate of nearby neighbors.

Please see the lists and map for park locations with water playgrounds and splash pads.
