Conditional Issuance of Building Permit Before Formal Acceptance

The City's Infrastructure Development process anticipates that site Building Permits may be issued before Formal Acceptance of the entire development by the City, assuming compliance with other applicable ordinances. This is a facilitating measure desired by all interested parties; however, both the Developer and the Contractor understand and acknowledge that no Certificate of Occupancy will be issued by the City until after completion of the entire development and Formal Acceptance by the City. Any and all construction pursuant to such a Building Permit but prior to the City's Formal Acceptance of the entire development will be at the Builder-Investor's own risk.

I acknowledge that I have read and understand this statement and that I cannot receive a Certificate of occupancy for the following property until the City of Tulsa has filed Formal Acceptance of the entire development.

Development Name: _____

Development Location: _____

Acknowledged:

Contractor:

Developer:
