City reserves the right to pursue all legal and equitable remedies to which it may be entitled.
9. **Indemnification by Seller.** Seller agrees to indemnify, defend, and save harmless City and its officers, employees and agents from all suits and actions of any nature brought against them due to the use of patented appliances, products or processes provided by Seller hereunder. Seller shall pay all royalties and charges incident to such patents.

Furthermore, if City accepts Seller's Bid and awards a contract to Seller based on such Bid, City shall not be bound to any exceptions, changes or additions made by Seller, and any terms and conditions added by Seller which are not expressly agreed to by City in writing will be void and of no force and effect and the parties will be governed according to the document precedence set forth in Section 1 above.

City's right to terminate this Agreement is cumulative to any other rights and remedies provided by law or by this Agreement.
15. **Price Changes.** The parties understand and agree that the variables in Seller's cost of performance may fluctuate, but any change in Seller's cost of performance will not alter its obligations under this Agreement, nor excuse performance or delay on Seller's part. If the IFB provides that Seller may include a price escalation provision in its Bid, Seller's price escalation provision will be evaluated by City as part of Seller's Bid price when awarding the Bid.
16. **Right to Audit.** The parties agree that Seller's books, records, documents, accounting procedures, practices, price lists or any other items related to the Goods and/or Services provided hereunder are subject to inspection, examination, and copying by City or its designees. TECHNICAL SPECIFICATIONS**SCOPE:**

It is the intent during the contract period, as nearly as possible, to purchase all the requirements for the item(s) bid from the firm(s) to which the contract is awarded.

Items refer to a quantity of eight (8) Digital Infrared Thermal Imaging Systems per the following specifications.

1.00 Bid Evaluation

- 1.01 It is the intent of these specifications for the Tulsa Fire Department to purchase fire service thermal image cameras.
- 1.02 The lowest bid meeting specifications will be determined upon a point evaluation process whereby each paragraph is assigned a pre-determined number of points.
- 1.03 The lowest bid meeting specifications will be determined upon a point evaluation process whereby each paragraph is awarded points for compliance. The bid amount is then divided by the total number of awarded points to determine the cost per point. The cost per point is then multiplied by the total possible points to determine a bid evaluation number. The lowest bid evaluation number will be considered the lowest bid meeting specification.
 - Bid Price / Total awarded points = Cost per point
 - Cost per point X Total possible points = Bid evaluation number
 - The lowest bid evaluation number will be considered the lowest bid meeting specification
- 1.04 The response to the bid needs to be provided separately from the specifications and should address each paragraph of the specifications. The response should include as much information and detail as possible.
- 1.05 Items or issues that are not specifically describe in the Bidders response may be considered absent, non-responsive or non-compliant to these specifications and will receive no points for the applicable paragraph.
- 1.06 The term, phrase or response of, or similar to, "meets" will be considered non-responsive.
- 1.07 Exceptions deviations, or variances, regardless of the real or perceived variance, will be provided on a separate document with disclosure and description of the exception, deviation or variance.
- 1.08 The Tulsa Fire Department retains the sole right in determining compliance to the specifications where the bid response includes Bidder provided exceptions, alternative options or is otherwise subjective as compliant to these specifications.
- 1.09 The bid will include all applicable literature, details, and references to describe and demonstrate compliance to the specifications. The Fire Department will not use or consider information obtained through web based references, searches or links to various web pages. The absence of provided information or the use of links and references from the web will result in the applicable item or issue as non-responsive or non-compliant and will not be awarded any credit or points.
