**ADDENDUM NO. 3
TO
PROJECT NO. 144017-G, 144017-AS, 2036A0025Z & 2036A0035Z
ARTERIAL STREET REHABILITATION FOR UNION AVE SOUTHWEST BLVD
TO 41ST ST INCLUDING 41ST ST INTERSECTION & ARTERIAL STREET
REHAB OF W. 41ST STREET S. UNION AVE TO ELWOOD AVE & W 41ST S.
& ELWOOD AVE INTERSECTION**

This Addendum No. 3 consisting of one (1) item, submitted by City of Tulsa is hereby made a part of the Contract Documents to the same extent as though it were originally included therein and shall supersede anything contained in the Plans and Specifications with which it might conflict. **All addenda to the contract documents should be denoted on the last page of the Proposal in the space provided.**

This Addendum No. 3 consists of the following:

1. **Question:** The current COT Specification 613 includes the type of Polara button (Audible Pedestrian Push Button) which required a programming device on the "IN" push button. The newer version of the Polara button does not need the programming device, as it uses Bluetooth connection and can be programmed from a phone. I would like to receive clarification about the use of Pay Item No. 115 AUDIBLE PEDESTRIAN PUSH BUTTON CONFIG/PROGRAMMING DEVICE.

Response: If the audible push-button equipment that the perspective bidder intends to provide for the project can be adequately programmed using Bluetooth technology, then it is probable that Pay Item No. 115 AUDIBLE PEDESTRIAN PUSH BUTTON CONFIG/PROGRAMMING DEVICE may not be required to complete the work. In this case, the perspective bidder should provide an appropriate unit price for Pay Item No. 115, which is allowed to be \$0.00.

All other provisions of the Plans and Specifications shall remain in full force and effect.

CITY OF TULSA

Paul D. Zachary, P.E.
