CLASS TITLE: DEVELOPMENT SERVICES INSPECTIONS MANAGER

PURPOSE OF THE CLASSIFICATION: Under administrative direction is responsible for managing the Development Services Inspections program pursuant to City ordinances, state statutes, federal law and performs other related assigned duties.

ESSENTIAL TASKS:
- Plans and directs the inspection services personnel in commercial and residential electrical, mechanical, plumbing, signs, erosion control and zoning inspections, investigations and appeals
- Directs the Professional Builders Program, including the ongoing development and administration of a comprehensive training program for contractors
- Administers criteria for assessment of employee professional training programs
- Prepares drafts for code adoptions and amendments, makes presentations to City Council and at public hearings
- Administers policies for authorized property entry, structure condemnation and abatement, due process of law and appeal of summary action, various administrative orders, mandatory noncompliance of construction and preparation of evidence and witness standards and statute of limitation
- Participates in and/or provides the Building, Housing and Fire, Plumbing, Mechanical and Electrical Examining and Appeals and Sign Advisory Boards with input related to the board resolution management processes regarding code adoption, grievances and appeals
- Interprets and ensures citizen and contractor compliance with federal, state and municipal building, electrical, plumbing, mechanical, water, sewer, watershed, sign and zoning codes and ordinances
- Analyzes and reviews code requirements, policies and processes, developing recommendations for needed revisions and adoptions
- Investigates and resolves personnel and customer complaints/issues, providing negotiation and mediation as needed
- Provides public information and confers with elected officials, department managers, legal staff, professional groups and contractors involving complex code issues
- Assists in the development and communication of policies, procedures and strategic goals and objectives to subordinates, boards and design professionals involving complex code issues for the City's long term development
- Directs, monitors and enforces appropriate City and state mandated license and continuing education requirements for inspection services personnel within jurisdiction
- Develops and administers the section's annual budget and safety program
- Conducts research and prepares technical reports and contracts for purchasing division's information systems
- Administers the purchasing, maintenance and surplus of vehicles for the Inspections and Permitting Services sections
- Must report to work on a regular and timely basis

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential tasks.
