

Downtown Master TIF News

Activation of TIF District “C”

In December 2017, the Tulsa City Council approved a new, 972-acre Tax Increment Finance District covering downtown Tulsa. As substantive developments are initiated in each of the districts, the City will activate the relevant areas, starting the clock on the 25 year TIF term. Due to the planned initiation of several large projects within TIF District “C,” we will be activating the district. District “C” is bounded by Denver and Lansing Avenues, and the railroad tracks and 8th Street. Property owners and developers are encouraged to contact the Mayor’s Office for Economic Development staff to discuss any planned or potential projects, and how the TIF might be leveraged in support of development and redevelopment efforts.
