Addendum #2

Please note the following changes which have been made for clarification to this Invitation for Sealed Bid. This addendum must be listed as Addendum #2 on Form #6 of the bid package as verification that you have received and are aware of the information contained herein.

QUESTIONS/CLARIFICATION/CHANGES:

CHANGE:

- 1. Bids must be received no later than 5:00 PM (CST) on Wednesday, March 13, 2019.
- 2. On page 23 of Addendum #1 Section 1 Item Suspension, #5, the double reduction rear end has been removed.

CLARIFICATIONS:

- Can you award the contract to more than one vendor? It can award to a primary and secondary, but will not be a split award.
- The specifications, as provided, exclude us from bidding our equipment. Any truck manufacturer is free to bid, and their bids will be evaluated. The high-pressure cleaning equipment are standardized accessories to any truck awarded the bid.
- 4. Do both seats to have 2 armrests each? Yes, both seats to have the arm rest attached to the seat.
- 5. On Page 25 of Addendum #1 under section bumpers the spec calls for a heavy duty formed swept back bumper. This is unable to happen as the sewer cleaner equipment manufacturers specifically request we omit the front bumper so they can mount the hose reel and brace the frame and their custom bumper to accommodate the hose reel. Please clarify.

The swept back bumper needs to remain because it prohibits catching and/or hooking that would cause

City of Tulsa, Oklahoma Page 2 of 51

damages. Additionally, the bumper needs to be heavy duty for any instance our crews need to push or pull.

- On Page 22 under in reference to the air horn the City is asking for cab mounted and the sewer cleaner manufacturers ask for the horn to be single air horn mounted behind the bumper. Bidder should bid with their own proposal.
- 7. The sewer cleaner manufacturers require the following to be present to deem the chassis acceptable to mount the body on the chassis. Please advise if these will be added to the specification. Smart Switch Expansion Module Front Fender Flares

Premium Cab Insulation

Cruise control mounted on LH dash panel

9 Pin OBD2 connector mounted in center of dash

Air tanks to be mounted perpendicular to frame rails with extra tanks mounted in after frame of chassis

Clear frame rails on outside of both rails

Metallic air manifold with (6) 1/4 air fittings

We will not be adding these items to the specifications.

Addendum #1

Please note the following changes which have been made for clarification to this Invitation for Sealed Bid. **This** addendum must be listed as Addendum #1 on Form #6 of the bid package as verification that you have received and are aware of the information contained herein.

QUESTIONS/CLARIFICATION/CHANGES:

CHANGE:

Removed "6. State listed torque rise % for engine proposed." from Engine item, page 22.

CLARIFICATIONS:

- On page 5, #4. TERM, My understanding is this is TAC1177 is for a total of 5 years, is that correct? The contract is for 1 year. City in its sole discretion may offer Seller an opportunity to renew this Agreement for an additional four (4) one (1) year term(s).
- On Page 49, I read that "Estimate Annual QTY" on Item 1 is "3 or more", so "Unit Cost" is for (1or each) and "Extended Cost" is for (3) x the "Unit Cost" ? Is that correct? Correct.
- 10. On page 50, #3. Annual Price Adjustment, is this for all of the priced items on the bid? Does this include the chassis?

It is for all items.

11. On Electrical System (Continued) item, page 41 line 9 calls for a 7 inch dash monitor and 2-Camera System and then on page 48, Option 7 asks for a 360 Degree Exterior Monitoring Camera System. My question is do you want BOTH Systems if Option 7 is chosen?

Seller agrees to indemnify, defend, and save harmless City and its officers, employees and agents from all suits and actions of any nature brought against them due to the use of patented appliances, products or processes provided by Seller hereunder. Seller shall pay all royalties and charges incident to such patents.

- 15. **Price Changes.** The parties understand and agree that the variables in Seller's cost of performance may fluctuate, but any change in Seller's cost of performance will not alter its obligations under this Agreement, nor excuse performance or delay on Seller's part. If the IFB provides that Seller may include a price escalation provision in its Bid, Seller's price escalation provision will be evaluated by City as part of Seller's Bid price when awarding the Bid.
- 16. **Right to Audit.** The parties agree that Seller's books, records, documents, accounting procedures, practices, price lists or any other items related to the Goods and/or Services provided hereunder are subject to inspection, examination, and copying by City or its designees.  - a) You must limit any increase to **one** of the following(<u>indicate your choice</u>):
 - 1. the change in the Consumer Price Index from BLS Table 1(web link below) from the prior year, as measured by the change in the CPI-U between the most recent month available and that same month in the prior year _____ (place an "X" here if this is your choice)

 - b) You must notify City, in writing, no later than 30 days before the initial contract period ends, or any renewal period ends, of your intent to exercise the price change formula in your bid.
